O. C. Sponsoring Cape Cod Bike Trip

Wellesley Cabin Work Session Also Scheduled

Two outings, a bicycle trip to Cape Cod and a Wellesley cabin work trip, will be held this weekend under the auspices of the Outing Club.

The bicycle trip is being undertaken in conjunction with the Simmons O. C., with a limiting number of six members from each school imposed. Paul Shea, 10-44, will lead the trip. Those making the trip will meet at South Station at noon tomorrow, and leave for Yarmouth at 12:30. From there they will bicycle to the A. Y. H. hostel at North Eastham, where they are to spend the night.

The group then intends traveling by bicycle to Provincetown in the morning and returning to Boston by bus. Passes for use of the hostel have already been procured. The cost of the trip is estimated at five to six dollars.

The Wellesley cabin trip, which will include a half day's work in addition to some hiking, is a stag affair. No limit has been placed on the number going. The group is to leave from the steps at Walker at 1:00 P.M. tomorrow, and travel by bus. DeForest W. Meehleib, 2-46, will lead the excursion.

Last week-end 24 persons went on the trip to the White Mountains, the primary purpose of which was to eligible Willard Clubs.

A bicycle trip along the North Shore is planned for a week from tomorrow. The destination has not yet been decided, and full particulars will be announced later.

Members wishing to sign up may do so Tuesday in Building 10.

Freshman Sections To Participate In Debating Tourney

Preliminary arrangements for the freshman Intersectional Debating Tourney are now being made by the Debating Society. Those freshmen who are interested should sign up in the Debating Society office in the basement of Walker Memorial. Teams will be chosen from section registrants, and upon the termination of the contest a silver cup, appropriately engraved, will be awarded to the winners.

The public speaking classes sponsored by the Debating Society are now in progress, meeting every Monday, at 5:00 P.M., in Room 6-219. Several English instructors conduct the classes. It is not too late for anyone interested to enroll.

time, be transferred to the N.R.

O.T.C. and colleges where such units were located. There, they would study at the Navy's expense until July, 1946, at which time further dispensations would be announced. Lieutenant Canfield suggested this might mean that at that time they would be put on inactive duty and be permitted to continue on their own. Trainees in engineering and physics courses, who had three or less terms to go before they had the full eight the Navy promised them, would be allowed to complete those terms here at the Institute, and, upon completion, they would be put on inactive duty in an enlisted status until they were commissioned (whether their enlistments ran out in the meantime or not). On being commissioned they would be again put on inactive duty, subject to the needs of the country.

The V-12 program for pre-medical and pre-dental students will be completed on November 1, 1945, said Lieutenant Canfield. At this time, such students would be put on inactive duty.

Tables Are Still Available For Bull-Session Dinner

Three tables are still available for groups of seven dormitory residents, together with a professor of their own choice at each table. The Dormitory Committee sponsored Bull Session Dinner will be held on September 26. There are no more tables available. All reservations is September 10.

Those interested in reserving tables should contact Alan Gruber, 10-45, Chairman of Dormitory Dinner Committee, Hayden 399. Further details posted on the dormitory Bulletin Board.

Inactive Duty

It was explained that inactive duty required little or nothing for the men concerned. It would not, however, be allowed to remain in the Navy, but would be able to stay in a reserve status until the time for which they had entered the Navy became due. In the meantime, the men would not be allowed to wear civilian clothes off duty. In interpreting the word "enlisted duty" to mean "the men's" service, it was explained that the men were to keep "civilian clothes with the Navy" on while on shore leave and at all times when they were not overseas or on leave. They were not to be allowed to keep them.

Mufti on the Streets

Lieutenant Canfield also explained the word "enlisted duty" to mean "the men's" service, it was explained that the men were to wear "civilian clothes with the Navy" on while on shore leave and at all times when they were not overseas or on leave. They were not to be allowed to keep them.

---

In answering questions, "subject to the needs of the country." It was explained that in keeping with the uniform which was to be worn during the "inertial system" was handled on shore, where the ships were being repaired, a new system was to be installed where men are not permitted to keep civilian clothes on, but may keep them should they wear them while on shore.
