Tech Sailing Team Wins Oberg Title, Holds Wood Meet

Freshmen Lose Crown To Coast Guard; Wood Cup Regatta Is Sunday

Tech won its third consecutive claim to the Oberg Trophy and the dinghy championship of the Boston area last Sunday by sailing to an easy victory in the tenth semianual renewal of the competition. This Sunday the team will again be in action on the Charles, participating in the annual Wood Trophy regatta.

Fresh Sail at Coast Guard

The M.I.T. freshman team was active last weekend in the Intercollegiate Yacht Racing Association's sixth annual freshman championship held on the Thames River at the Coast Guard Academy. Although Tech, by bowing to Coast Guard, 107-104, failed to retain its team title, Johnny Marvin, of M.I.T., captured the individual championship by outsailing his closest competitor by a single point. Ray Brown was the second skipper representing Tech.

Amassing a total of 146 points, Tech turned back Tufts, with 117, and Northeastern, with 88, in the Oberg regatta. Each team entered three boats in six races. Individ (Continued on Page 3)

Veterans Organization Formed; Will Apply For Class A Rating

A new activity was born on the Institute campus last Wednesday, September 19, in Room 6-130—a veterans' organization. In a meeting specifically called for the purpose of determining if such an organization was to come into existence, the vets voted almost unanimously in favor of the necessary measures to be taken in forming the group. The vote followed a speech by Lt. Col. Jay Zeamer, G., on the aims and purposes of the proposed organization and a subsequent general discussion.

The constitution which had been drawn up by a previously appointed committee was accepted, and a petition was signed by about forty veterans—making them charter members. This marked the organization's inauguration. No name has yet been agreed upon for the group, but it will apply at the next Institute Committee meeting for recognition as a class A activity. A meeting will take place the following Monday, October 1.

Several suggested activities of the group have been: a local committee with the Veterans' Administration, and aiding the incoming veterans in orienting themselves to all phases of Technology life. With the ever increasing number of ex-servicemen returning, it seems more than likely that the new organization will be quick in expanding.
