The annual Dormitory Christmas Dance will be held Friday, December 14, from 9:00 p.m. to 3:00 a.m. in the Multidorm. All of the Dorms, including the Lounge Dorm, will be open for the occasion, and open house will be held in the Dormitories. Dorms will be extensively decorated for the occasion of Christmas themes.

Mal Hallett, leader of the junior Junior Prom, and his orchestra will play all night, which will be semi-formal. A no-courage rule with beginning will be enforced. Tickets will go on sale today from 2:00 p.m. to 5:00 p.m., Saturday from 10:00 a.m. to 1:00 p.m., and Monday through Friday from 9:00 a.m. to 1:00 p.m. in the Lobby of Building 10. The balance tickets will be $1.00, but include tax. For the first 150, $1.40 for stags. For the remaining options will be $1.00 for girls, $1.60 for couples and $1.40 for stags. For the final ticket will be 95¢ per person. Supper tickets will be supplied by recordings. The fare for the round trip will be $1.00, and will include transportation, seven miles away. At the morning, the dance will be held in the Lobby of Building 10. The students will arrive at Mass Hall at 7:30 A.M., and will leave in time to make the 12:09 train to start the fun of sound personal accomplishment achieved as a result of understanding and partial control of the natural and human forces which determine the quality of one's existence.

A most important factor noted above, an understanding of humanity, is acquired best through contact with it, and a sense of self in which to get experience while at M.I.T. is in undergraduate activities.

One reward, for instance, is that Industry, in hiring, gives preference to men whose experience in activities has made them broader gauged citizens. Such men are better bets to be successful in industrial life.

Because of the academic load at M.I.T., the happiest results are obtained when the individual's energy level is sufficient to cover academic and extra-curricular demands. A congenial activity is best, and the hours, over a period of time, must have enlarged the individual's horizon.

Many of M.I.T.'s outstanding men first showed their value as good workmen by their accomplishment on The Tech, Tech mag, Institute Committees, etc. They give generous credit for their success to a fortuitous start due to the happy accident of fate that matched their interests to an activity. Try it out!

T.C.A. Boy's Work Division Urgently Needs Men

In a Multitude Of Manual And Athletic Activities

The need for volunteers and give-in from various in neighboring classes, the T.C.A. Boy's Work Division has been literally swamped with requests from the Boys' Organizations which are desperate in need of student leaders to enter them various manual and athletic classes.

Since professional help is now available the group can lean heavily on college students who are interested in conducting their clubs, and the T.C.A. Boy's Work Organizations as an intermediary increases the Boy's Clubs and interested volunteers.

Right now there is need for leaders in photography, woodworking, hand crafts, baskteball, swimming, wrestling, model airplane building, dancing, singing, studying and many others. The clubs are usually held once a week and therefore require only one of the volunteer's time. If any one is interested in such a class, he is urged to apply to the T.C.A. office, and all arrangements will be made to suit his convenience. . . . The T.C.A. office is in the basement of the Multidorm. It is open every day from 4:00 A.M. to 5:30 P.M.

Girls Needed Too

The need is not confined to boys; girls have certain gifts which are needed. Girls are needed in sewing, cooking, demanding, and any sort of household work. The Boys Work Division of the T.C.A. now has 26 volunteers from all walks of Institute life assigned in various places. There is representation from the Instructional staff to the Radiation Laboratory, to the Communications, Fraternity, the Navy, and the Vocational staff. This activity is open to anyone connected with Technology in any way.

LEAD WITH YOUR LEFT!
