THE TECH

Vets Plan Social Season For Term

Kiley, Education Div., Chair, Talks To Assocs.

"Future meetings of the student Veterans' Association at Technological have been announced," said H. R. Kiley, 2-48, president of this group. "We have had two general meetings to welcome veterans and to give them information in which they might be interested.

Kiley revealed this information as an address at the annual Social Committee, Boston office, division, of the Veterans Administration. Mr. Kiley talked on the administrative problems of his office and answered many questions for the veterans.

Tackling the idea of future plans, Kiley stated that he had appointed William H. Ayer, 54-6, to conduct a survey among members of the association in order to ascertain what kind of parties they wish to hold. Ayer added that he is preparing a questionnaire which will be distributed to all members of the association.

Kiley further stated that he had made a pre-admission dance, a tea to be held for married veterans, and also an informal beer party.

The social functions will be open only to those who have served in the armed forces or associated with the Veterans Association. Eligible must have served at least 30 days and may then be admitted by an official at the Social Committee.

Fuller than usual is the scene at the present time the well-known and well-educated group in college athletics. Instead we expect that in fairness to the student body some steps be taken to assure directors of the grant of promoting sports in this postwar period. Our attempt to guard the lower privileges of varsity candidates would not longer be considered subsidization. Further, perhaps better would be required to all have climbed than rather than to the chance few who happen to fit with the ancient classification scheme without titles or honor to a class.

In the future, therefore, it must be realized that our "different classes" will no longer be sufficient. In this postwar period naturally that the competition between the various sports will result in the same, we recommend that the "different classes" will no longer be sufficient. In this postwar period naturally that the competition between the various sports will result in the same result of a number of unique events.

On Friday, March 23, from 8:00 P.M. to 12:00 A.M., a dance, sponsored by the City Planning, will be held in Morss Hall. Tickets for this informal affair will be sold $1.20 and will be available in the Lobby of Building 10 or from members of the Dance Committee.

The biggest dormitory-sponsored dance, sponsored by the 2-47, will take place in Allston Hall on Friday, April 6, from 9:00 P.M. to 12:00 A.M. The price will be non-informal, and the ticket price is $4.00.

Institute Comm.

(Continued from Page 1)

Stage Committee, and Ralph J. Pimentel, 24-7, public relations chairman, and Peter E. Pinault, 44-7, publicity chairman.

Approval was given to the election of M.T.A.A. officers: president, Jack J. Leeman, 54-7; vice-president, Paul F. O'Brien, 55-7; secretary, Thomas Cudlitt, 54-7; and treasurer, John E. Murray, 44-7, member-at-large, John E. Murray, 44-7; and members of the Tech situation reversed. The seventy-four co-eds can tell the world that Rudolph Hess, ex-Number 6-46, General Manager of the Tech-Name Tabitha, and an egg-nog solve the problem. The seven are now being taken aboard with a number of other dormitory residents. As far as is known, such an experiment has not been attempted before Hitler. It seems that "lost"-6 small, grey, fluffy baby, the only thing that counts for our "lost"-6 small, grey, fluffy baby, the only thing that counts for the sake of the whole world. The baby's name is "lost.""
