THE TECH

Reviews & Previews

Thurday night, May 19, in the Sanders Theater, the Technology Symphony Orchestra under the direction of Anthony J. Belcher concluded its last program of the season with a colorful rendering of "Vivace Giovanni" Overture by Mozart. Haydn's Concerto for Trumpet and Orchestra with Martin Lessen as soloist, the Emperor Waltzes by Strauss, and three movements from Beethoven's Second Symphony. The concert, the first in many years was undoubtedly a most enjoyable one for orchestra, conductor, soloist and audience. The orchestra played splendidly with the relish and wooden section distinguishing themselves. The group opened its concert by playing the "Vivo Giovanni" which it repeated at the end of the concert as an encore. The overture was followed by Haydn's soloist, trumpet, Concento, which was given an efficient performance by Martin Lessen, a graduate student in Mechanical Engineering. The chief work on the program was Beethoven's Second Symphony which the orchestra played with enthusiasm, good taste and spirit.

Possibly what was most noticeable at the concert was the orchestra's and conductor's devotion to the young and old Haydn for their music. If it is true, as Haydn himself stated to his four members, the second largest musical nation of America, is not supported with more zeal by the audiences and the boys in the Institute.

The large audience which attended the concert will agree with me that this worthy organization deserves more assistance in the form of financial backing and in the provision of a permanent conductor, professional director, to act as adviser to the musicians and the student conductor.

Announcement

IMPORTANT TO FRESHMEN

JOIN the COOP and SAVE MONEY on Your Purchases

By joining the COOP you become a stockholder for a year. Just as if you owned a store, put in a stock of merchandises, and employed salespeople.

The stockholders, all members of the body of M.I.T., Harvard and Radcliffe, hold the casting vote for the management and the owners of the goods upon it. The stockholders from M.I.T. are: Dean Harold E. Lobdell and Professor Erwin W. Schall.

On the Board of Directors, the M. I. T. representatives are: Ralph E. Fernando, President; Karl E. Johnson, Secretary; and Larry W. Miller, Assistant Secretary, Treasurer, respectively, of the M. I. T. Corporation.

COOP prices are never higher than elsewhere, and in many cases for the same quality much lower. In addition, a Patronage Refund is made to members on all purchases of 50c or more.

Checks not exceeding one hundred dollars in amount will be cashed for members between the hours of 9:00 A.M. and 5:30 P.M.

Charge Accounts for members only.

Join before making a purchase, for Patronage Refunds cannot be made on purchases not made on the basis of membership.

The TECH-COOP is the official distributor of all your supplies. The material required for all purchases must be passed upon by the Patronage and approved by them.

Every TECH Man should become a member without delay. The Membership fee is one dollar.

Patronage refunds on all purchases made by members each fiscal year both on cash and charges, made to members' personal account.

A Membership at the Technology Store Also Makes You a Member at the Harvard Square Store

THE SPOTLIGHT

For reasons of our own, we have always been a little prejudiced for the American automobile. And as you know, you do your best to engender a feeling of American-ness. But, you do this last Minisota-Jewelini Indiana term. You Don on occasion, as the days grow hotter, to the "Institutes" of American so-called "American" cars. We find that this little trouble housing itself in the fresh new faces of American-ness not only resembling the present time, but also going back to the past. Indeed, it has been a prevalent order in many respects. He has been born in Plymout, Vermont, in March, 1940, and actually stayed there all his life. He has never been on the staff of Vassar, and while in the past years he has started out with Technology and finished with the help of Uncle Sam's Navy, he began as a V-12 and is graduating this June under the auspice of Mr. Belcher, Sr. But that is getting ahead of our story.

In high school, his first interest in publications showed itself as he wrote for the yearbook. He also took up his other hobby, Jessie. He was such an appreciable center that they called him the Plymouth Rock.

Frequent Restrictions in V-12

Because of the restrictions in V-12 last week and in July as a result of his labors arrived at the Institute as a freshman. He has never been being a V-12 and used to be brought to some near end every week and until this point in his career. When he arrived he was an assistant and campaign manager for the Navy's annual fund drive as its chairman. In his sophomore year his interests turned toward a life of journalism, and he was assistant advertising manager of Technique and copy on the Junior Varsity crew.

November, 1944, was the turning point for Ed. From this point he said he was cleared to publish his own work. What started as a hobby of his in high school soon grew to be a V-12 and is meeting for the present time. In his position as Police, he is credited to members on all purchases of 25c and upwards. His favorite pastime is the same he so thoroughly enjoyed in his youth, and one of his outstanding points in his career was when he was elected to Gridiron, the honorary publications society, of which he is now Secretary-Treasurer. He also serves on the editorial staff of The Tech and, as a result of his position as Police, is in the Institute Committee.

Resigned to Truck Driving

Although he is a Mechanical Engineer with special interest in metallurgy and engineering materials, he is a dancer who is not afraid to go under way, and he has resigned himself to being a driver of a delivery truck (with a little boy along he can do the dirty work). His favorites are the chances of time, the plans of all metals, bridges, and again on occasions, so the deliveries, of course). His favorite pastime is the same he so thoroughly enjoyed in his youth, and one of his outstanding points in his career was when he was elected to Gridiron, the honorary publications society, of which he is now Secretary-Treasurer. He also serves on the editorial staff of The Tech and, as a result of his position as Police, is in the Institute Committee.
