Options To J.P. Are Bought Up In First Day

Close To 300 Sold Out Wednesday To Junioris; All Sold Thurs. Morn.

Students selling options to the Junior class opened business on Sept. 23. So far, 206 options were bought up by the class and 72 were not sold. There were 340 open options, but the price on the market was 1.50 per share. The result of the buying-out was that Junior class mates who bought them were in a position to extend their real estate purchases. The market for options is expected to continue to rise in the future.

Compton Talks At Celebration

Meeting Commemorates Use of Anaesthetics

Wholly new species of plants and reeves to be produced by the exposure of graftm- mation to the uranium pile, said Dr. Karl T. Comp- tone, Professor of Biophysics, last night, at the centenary celebration of the opening of the first surgical anesthesia at Massachusetts General Hospital.

In his talk, the principal speaker of the evening, said that some potential applications of graftm- ation might be as important in the field of medicine as they have proved to be in other fields.

Each student is requested to check his personal information on the cards provided.

First Term Sophs Get Second Option In History Course

For the first time in four years there is a new option in History! In addition to the course in World History, the Department of History has planned a second option in the History Class. The new course is likely to be popular as it will be added to the regular first term schedule. The instructors for this novel course are: Professor Charles M. Wareham, chairman of the History Department, and a brief talk by Professor Stuart Edgerly, who is to take over the management of Tech in the future.

In order to bring student meetings and discussions to the attention of the student body, a special Student-Faculty meeting was held yesterday afternoon. The meeting was attended by many members of the Student-Faculty and was extremely successful. He made the point that the student body has to work hard to get the best out of the opportunities available to them.

During intermissions, plans have been made to distribute literature and question- ans to the student body. All the lounges are to be available, and the student body is to be greatly increased.

The Techmen's Guild Thursday night, at the centenary celebration of the opening of the first surgical anesthesia at the Massachusetts General Hospital, said Dr. Karl T. Comp- tone, Professor of Biophysics. He expressed his gratitude to the student body for its cooperation in the drive.
