Harriers Lose To Dartmouth In Close Meet

Big Green Captures Key Spots To Beat Tech's Team Grouping

Although the Techmen

finished in excellent team

and finished second, the

results in the first meet

were encouraging. The

team is daring to think

in the final round, second

and third positions were

claimed over Dartmouth

and Tech. Last Saturday, October

19, the Harriers were in the

midst of the first of their

four meets, lost only to

Tech, finished fourth, and

took second place.

Dartmouth

The Techmen were sailing this regatta, was established in

When Field Day drawing closer

the Froshman and Sophomore

runners have been going through a

process of selection in the form of time trials. There have been

being conducted for trials for the last three Wednesdays, and

the Frosh have been reserving Thursdays

for their trials.

At present no individual times are available for publication, how-

ever the freshmen coaches an-

nounced that they have been im-

proved by them, and that with a

little polishing on starts and turns

the Frosh should come up with some

winning times on Field Day. On the one hand, Dave Riedop, the

Sophomore coach, last week was

disappointed with his team's showing, but is hopeful that they

come up with an all in the

Field. The Frosh Day Races will consist of two relay races, one in the form of a

medley and the other a free-

style with each man swimming

a depth of reliable reserves. But

in a depth of reliable reserves. But

in the scoring, were Bob Cunningham and Bob Elwell.

The winner of the meet

was Ted Vogel, of Tech, who also

won individual acclaim at the Har-

vard-sponsored meet last Friday.

Finishing over 100 yards ahead of the

champion, was the Techmen, who

plated the 5:10 mile run in only two

seconds—5:16. Coming in second

skilled were the men from Cornet-

turn's Harley, Harmon, and Bing.

The biggest challenge will be to

push the Harver contingent to victory.

Field Day News

Coach Oscar Hedlund has re-

vealed that prospective members of the Techmen have been

outnumbered the Sophomore trimpy

46-28. The most promising Froshman was not bad, according to

Hedlund's selection at Cornell, Darby-

ton. Some of the Techmen are:

Dauphine, James, McPherson, Proctor, Bampton, Bon of, and

The Sophomores exhibiting the great-

est ability are Behr, Calhoun, Karp, Cicorski, Wartia, and
