WELLESLEY COLLEGE PRESENTS
"SKIN OF OUR TEETH"

November 1—8:30
November 2—8:00

THE BOSTON MUSIC COMPANY

"Wow! This job sure keeps me hopping!"

"BELIEVE me, this is the first time the all-dial and manual switch- board equipment and long distance facilities into Bell Service is offered all around the country in keeping me mighty busy!"

In a single big dial exchange there may be 4,000 miles of wire. I may have to solder 2,500,000 connections before everything's ready for you to dial a number."

"Besides including the complex apparatus, I build it. That's part of my job as manufacturer for the Bell System. I also purchase all manner of tools for the Bell Telephone Companies... and always use these huge machines along with the equipment I make."

"Even since 1918 we've been helping to make our nation's telephone service the best in the world. Today... with the Bell System's construction program, we build more than $2,000,000,000 in full swing... I'm busier than ever."

"Remember my name... it's Western Electric."
