Sailing Season Brought to Close
With Tech Boasting 2 Trophies

The 1964 season for the Tech Yacht Club was an official one. Under the direction of Coach Jack Wood, the sailors won the Rudolf O. Oberg Cup on September 15; the Tufts-Cambridge and Davenport Trophy on October 6, and the Wood Trophy on November 25. Furthermore, we saw the sailors come out second-best in the Intercollegiate Yachting Racing Association annual fall regatta, and also pull up in second-place when the MacMillan Cup was awarded at Dartmouth. The competition for the Schell Trophy came from the Techmen in sixth place at the end of the final race.

Annie Ogbey Trophy

For the second season, the competition for the Rudolf O. Oberg Sailing Trophy. On September 29, Johnny Marvin and Ralph Evans led the technocrats with forty points each, while Dick Worrell pulled up thirty-six. The sailors finished twenty points ahead of the second place Boston University team. Competing in this first regatta were six colleges from the greater Boston area.

December 6, 1964

The semi-final round will take place at 3:00 P.M. on Wednesday, December 18, at the same time, the final debate of the tournament will be held in Room 6-122.

TCA Drive

(Taken from Page 12
P. M., at the drive table in Walker Memorial from 1:00 A.M. to 2:00 P.M., or in the Taubman Club from 6:00 A.M. to 5:00 P.M.

The drive is being managed by Robert R. Hindlebrandt, Frank L. Jones, Jr., W. A. Allison, Chairman, and Stanley A. Playerhood, Jr., Treasurer. Clinton C. Adams, is advising the Drive Committee.

Freshman Debates To Eliminate Tourney

In an effort to create more student interest on topics of national and international importance the Debate Society, through the Department of English, has organized two debating tours in most of the E11 and E12 sections. The difficulty of the tourney is that the two sections will be meeting on different afternoons for the first round of the tourney. The seven winners, plus one section that draw a bye in the first round, have their second verbal clash next week. These will begin at 4:00 P.M. Tuesday, December 19, in Rooms 2-312, 2-313, and 2-318. The Debates will be at the same time on Wednesday, December 21, in Rooms 2-313. All students and interested persons are invited to attend these meetings.

FRESHMAN DIVISION

The current season started on November 25, and the series of debates and eliminations will make up the tourney. The first round was scheduled with seven winners, plus one section that drew a bye in the first round, have their second verbal clash next week. These will begin at 3:30 P.M. Tuesday, December 19, in Rooms 2-312, 2-313, and 2-318. The Debates will be at the same time on Wednesday, December 21, in Rooms 2-313. All students and interested persons are invited to attend these meetings.

BELL SYSTEM

A UNIT OF THE BELL SYSTEM SINCE 1882

Editor

The TECH

Walker Memorial

Dear Sir:

In the issue of The Tech dated November 15, you published an article advocating the installation of pay telephones in the residence halls of our revered Institute. Gentlemen, much as a Techman and American and would constitute a major injustice.

That the pay telephone is a menace to our society today is not a factor in any argument advocating the replacement of democratic institution is at once breathtakingly real if one considers the present day scene, the rule is that everywhere, everyone finds the term "little boy" in prevailing in our general horror we find the youth of the country is equivalent in terms as "a person before a pay phone with only four cents in his pocket."

Gentlemen, the doors on pay phones extend to the floor.

On careful examination of the Bill of Rights we find that such person has "certain inalienable rights" and that these include "life, liberty, and pursuit of happiness."

If all people are happy when relieved from grief, worry, or pain, it is at once apparent that the citizen of the country is granted, constitutionally, the right to sit on the pay phone of today places a certain premium on them.

Gentlemen, this is a grievance of national proportions and often been a pressing problem in the past. The Tech should vigorously prosecute a complete elimination of pay telephones. In closing, gentlemen, I wish you could stop this ridiculous act of vandalism and removal of that which you do not forget a common excrement abuse—the penny paper dispenser.

How many of 'em can YOu remember?"

The year 1882 was a significant one for the nation as a whole. It marked the centennial of the Declaration of Independence and the ratification of the Constitution, the latter of which became a turning point in the country. The year 1882 was also significant for the world of technology. At the time, the telephone was being developed and became an immediate hit. The year 1882 also marked the beginning of the American Telephone and Telegraph Company, which eventually became known as the Bell System.
