Pie-faced Peds

Having the time of their lives participating in the Mankato State Teachers college pie-eating contest these students gained very little for their efforts other than messy hands and faces, stained ties and shirts AND PLENTY OF PUMP-KIN PIE. The winners, pie all gone, can be seen staring into the camera.

Tea Time

These students of Alabama State College for Women, a portion of the 25 men admitted last September, got into the spirit of things and held a faculty tea. Coeds bid their male attire and they were forced to wear their feminine garb longer than planned. The tea was held at the appropriate time of 5 p.m.
