There is little doubt that one of the most unexpected features about

Technology activities has been the popularity of the team. It has

been especially true in regards to sports. Although the formation of the

Public Relations Committee need not be reported here, considerable

regard to the scholastic activities as reported in the Boston papers, it

appears that there will be little complete attention to sports under

the P.R.C. at the present time.

It is almost evident that the be-

hardt-hitting Haydel has the easier

way. Vitagliano came through once

is little or no consideration of the

publicity given to them. This has

Tracksters Close Indoor Season; Mile Relay Sports Best Record

BY JAN HOEGFELDT

The race between the Tufts and Tufts teams was at the 50th

mile at Boston Park, and the four Boston

men on the following Sunday, and for the first time in their indoor

season the tracksters trudged

through. Again, after a close race, the

Tufts anchor man, Vitagliano, led a

double to take first place in the 4-mile,

by 28 yards, the 5th mile on Brown for

the Tufts and MIT runners. Then, both

Tufts and MIT men picked up an

anchor's wide margin, but with

Vitagliano running a terrific third

place, in 3:25, the Beavers moved into

the lead. The race was the same as it had

been all season, with Palmieri and

Vitagliano firing it out all the

way. Vitagliano through once

more to win by a margin of three

or four points.
