European Summer Trips On N.S.A. Student Ships Possible for M.I.T. Men

Those Interested Should Apply Now For Voyage in '48

Details are now being worked out by the International Activities Committee of the United States National Student Association to obtain permission from foreign governments for student ships to proceed to countries in the United States. At the present time, applications have been made to several countries in Europe, Asia, and Australasia.

Many Opportunities Available

As the list of countries for which applications will be made increases, more opportunities will be available for students interested in visiting foreign lands. The list now open are: study, reconstruction, travel and research.

Are You Interested in...?

Are you interested in participating in the above program? Students interested should write at once to the International Activities Committee of the United States National Student Association, concerning your interest in these trips.
