consider that the figure of $25,000 is not as much income as the Institute should be receiving from the investment of its funds on these buildings. It is factors like these that we need to understand."

TCA Collects Old Books To Help FSPS Students
The TCA and the Buildings and Power Department are furnishing old books to give to the nearly 90 European graduate students that are to be studying here this summer under the FSPS.

All students who will be cleaning out their rooms or lockers within the next two weeks are urged to contribute something for the visiting students. Items suggested are books, pencils, paper and slide rules.

These articles should be turned in at the NSA office in the basement of Walker Memorial.

Some telephone numbers you ought to know

Some thoughts and suggestions:

- The number of people who are employed in the Long Lines Department of the American Telephone and Telegraph Company.
- The number of people who are employed in the Long Distance Department of the American Telephone and Telegraph Company.
- The number of people who are employed in the Overseas Department of the American Telephone and Telegraph Company.

The number of people who are employed in the Long Lines Department.

26,000 - This is the number of people who are employed in the Long Lines Department of the American Telephone and Telegraph Company. Each operating company is responsible for furnishing telephone service within its own territory.

6,000 - This is the number of people who are employed in the Overseas Department of the American Telephone and Telegraph Company. It is their function to provide Long Distance and Overseas service.

In all, there are some 188,000 men and women employed in the Bell System. An important responsibility of the Bell System's communications service is expanded and improved, opportunities will grow still greater. There's a future in telephony.
