'49 Executive Committee Chooses Insurance Plan To Finance Reunion Gift

Champ, Benenson, Rubin, Reiner
Form The Tech Managing Board

Other Promotions Announced

GUESTS LISTEN TO BANQUET SPEAKER

Ellis, Killian, Baker
Speak At Annual Banquet In Dinty's

New members of the Managing Board of Volume LXIX of The Tech were announced at the annual banquet last Monday evening at Dinty's. They are Norman H. Champ, Jr., General Manager; David M. Benenson, Business Manager; Samuel W. Reiner, Editorial Chairman; and David Reiner, Managing Editor.

The tech of the evening was Mr. Harry B. Ellis, a member of the Foreign News Department of The Christian Science Monitor. He outlined in his address the course of events which led to the atomic bomb and the World War II. Dr. James K. Willey, Head of the Rogers Laboratory, also spoke, and closed the evening by introducing Mr. Ellis to the retiring board in a short talk. Dean Everett M. Baker also spoke a few words.

A new Junior Board was also appointed, with William H. Miller, Jr., Class of 1950, as President; Leland M. Benenson, Associate News Editor; Marcus C. Groseman, Features Editor; Frank Michael, Assistant Managing Editor; and Richard W. Balquet, Business Manager.

Members of the Business department include: Jack Davis, Advertising Manager; Sheldon Haskins, Circulation Manager; Warran Stuart, Associate in Charge of Sales; and Edward O. Welsh, Office Manager.

Staff Members

The staff members announced for the current term were: Ernest A. Graff, Ralph W. Hall, Jr., and James D. Stone, Jr., of the Postgraduate Division of Electrical Science; Frank F. Jones, Beverly Airport; and Everett M. Baker also spoke a few words.

The show is free of charge, Dinty's for men, and two dollars for women.

No Exams, Finals or Themes

In New English, History Courses

No written work, no examinations, no finals are some of the features of the new courses in the History and English Department. It was announced by John B. Bliss, Associate Professor of History, that the new seminar courses, which will be one hour class work and three hours homework per week, will be held each semester.

Although the courses are designed for those really interested in the subject, credit will be given as follows: For each term's work of the seminar course taken, credit will be given for one term of Seminars. No credit will be given for one term of the seminar courses, if this is the case, the seminar courses will be held each semester, August to August of this year. Up to this time, courses in this have been given in English, history, by Mr. Wood of the English Dept. New assignments will be given, with the opportunity to receive a plus or minus in English courses. A plus or minus in English may be given for the course in English.

New Army Policy Offers Commissions

By J. U. W.メッキ

To Regular Army

A new policy of the Department for Army officers of the armed services is given the opportunity to receive appointment in the Regular Army was announced this week by Colonel Harold H. Kennedy, Professor of Military Science and Tactics. Appointment will be made in two major increments in March and August of this year.

Selected applicants will be commissioned as second lieutenants in the Regular Army, for whose commission, the new policy will be carried out. They must be between the ages of 21 and 27, however, the upper limit may be exceeded by the appointment of those who have served honorably for a period of at least one year as a commissioned officer in any of the armed forces of the United States. He must possess a minimum of a college degree.

Harrison Given Medal of Merit

Science Dean Honored

For War Discoveries

A new President of the American Physical Society, Dr. George R. Harrison, Dean of the School of Science, was awarded the Medal of Merit today by Dr. Karl T. Compton, Chairman of the Institute's Corporation and Chairman of the Institute of Science and Development Board of the National Institute of Mathematics and Development Board of the National Institute of Mathematics.

The medal was awarded to Dr. Harrison in recognition of "exceptional contributions to the performance of outstanding service to the United States." His work as Assistant to the Director of Scientific Research of the National Resources Board Committee increased materially during the years of World War II.

Dr. Harrison, a native of San Diego, obtained his doctor of philosophy degree from Stanford University in 1924. He joined the staff of the Institute as professor of physics in 1930 and has been head of the school since.

Harrison's unceasing and selfless efforts, he was responsible for or- ganizing, initiating, stimulating, and personally guiding research efforts, he was responsible for organizing and performing investigations culminating in equipment and methods which saved the United States many lives, and increased our effectiveness in the war.

TEN FELLOWSHIPS

The Senior Class Executive Council has voted unanimously to adopt a new policy in favor of only after examining all possible plans for the raising of the funds. The plan is as follows:

Each individual takes an equal share in the total of $1,000 and names anyone he wishes to be a member of the Board of Directors. The annual dividend would be payable to Technology to be accumulated in the fund until the 25th reunion. At this time, the amount would be payable to the individual.

The dividend of an insurance policy is payable to the policy holder. After the end of the 25th year, the operating costs will be payable to the individual.

Ten Fellows will be selected from a field of business students who have been in a national competition for a year of graduate study in the Sloan Fellowship. The award of ten fellowships this year is the result of a national competition for a year of graduate study in the Sloan Fellowship.

Ten young executives from various companies have been named to serve in their appropriate temporary positions as officers of the armed services are given the opportunity to receive appointment in the Regular Army. Appointment will be made in two major increments in March and August of this year.

Although the courses are designed for those really interested in the subject, credit will be given as follows: For each term's work of the seminar course taken, credit will be given for one term of Seminars. No credit will be given for one term of the seminar courses, if this is the case, the seminar courses will be held each semester, August to August of this year. Up to this time, courses in this have been given in English, history, by Mr. Wood of the English Dept. New assignments will be given, with the opportunity to receive a plus or minus in English courses. A plus or minus in English may be given for the course in English.
