Sloan Fellowship

The Sloan Fellowship Program for Executive Development was originally founded in recognition of the increasing need for business leaders with a fundamental understanding of the broader and longer-term phases of management and of the economic and social background within which business operates.

Professor Gerald B. Talman of the Department of Business and Engineering Administration, director of the Sloan Program, commented, "The courses are to be undertaken by those who are determined to capitalize upon their maturity and background and to offer an expertise not otherwise readily obtainable by the young executive in industry."

Professor Talman went on to say, "The better appreciation of the varying objectives and points of view of different elements in our society provides a foundation of understanding for intelligent administration of the individual business enterprise and for adjustment to new circumstances and attitudes as they arise."

CHEST X-RAYS

The deadline for chest x-rays is January 15. If you have not yet had your chest x-ray, please report to the Medical Department, preferably between 9-4 any afternoon, for a chest film. This applies to all students who have not been x-rayed since September 1, 1948. Registration any afternoon for a chest film.

DR. W. L. Hughes, Jr., Jr. Department of Physical Chemistry, Harvard Medical School.

Economics and Social Science Department. Graduate Economists Seminar: "Labor's Participation in the CCA." Clinton D. Goldin, Labor Advisor, Economic Cooperation Administration. Hitchcock Lounge, Memorial, 4:00 p.m.

Fed Cup. Men's singles. Memorial Gymnasium, 4:00 p.m.

Mathematics Society. "Some Elementary Applications of Topology." Dr. W. J. Harring, Room 4-172, 5:00 p.m.

Physics Society. "Electrostatic Generators and Their Applications to Science and Industry." Dr. W. W. Bouchener. Room 2-304, 4:00 p.m.

Tuesday, January 11

Biology Department: Colloquia: "The Chemistry of Serous Albumins." Dr. W. L. Hughes, Jr., Department of Physical Chemistry, Harvard Medical School.

Chemistry Department: Graduate Students Seminar: "Labor's Participation in the CCA." Clinton D. Goldin, Labor Advisor, Economic Cooperation Administration. Hitchcock Lounge, Memorial, 4:00 p.m.

的身体

Faculty Bowling League. Walker Memorial Alley, 5:00 p.m.

Model Railroad Society. General meeting. Room 613, 5:30 p.m.

数学

Faculty Club. Luncheon meeting. "Civil Liberties and Congressional Committees." Professor Zechariah Chafee, Jr., Harvard Law School.

Economics and Social Science Department. Graduate Economists Seminar: "Labor's Participation in the CCA." Clinton D. Goldin, Labor Advisor, Economic Cooperation Administration. Hitchcock Lounge, Memorial, 4:00 p.m.

Dr. John J. Wright. Room 6-126, 5:00 p.m.

"Triumphs and Rates in the Steelmaking Slag-Metal System." B. E. Larsen, United States Steel Corporation. Room 2-390, 4:00 p.m.

"Some Ideas on Reaction Mechanisms and Rates in the Structure of Mica-Drug System." E. B. Mcllroy, United States Steel Corporation. Room 2-390, 5:00 p.m.

"Some Elementary Applications of Topology." Dr. W. J. Harring, Room 4-172, 5:00 p.m.

"The Better Appreciation of the Varying Objectives and Points of View of Different Elements in Our Society Provides a Foundation of Understanding for Intelligent Administration of the Individual Business Enterprise and for Adjustment to New Circumstances and Attitudes as They Arise."

It Troubles Trouble

T he newly developed electronic tester looks for trouble. . . discovers trouble before it becomes serious. With it, every telephone line in a Central Office can be checked and tested at the rate of 5,000 per hour. Breaks and weaknesses in wire insulation can be spotted miles away and the trouble eliminated before it interferes with telephone service.

In the telephone business the search never ends for new equipment and new methods that will help make good service even better and keep it low in cost. That's why America enjoys the finest telephone service in the world.
