Publicity Seminar Holds First Meeting

The first meeting of a newly founded committee of The Tech was held on Thursday, Feb. 24. This group, headed by Melvin Ondrinke, '50, of the Walker Memorial Committee, proposes to stimulate ideas and increase efficiency in publicity for all M.I.T. activities.

At the Feb. 24 opening meeting, an introduction of outline program was given by Professor John Cunningham, Chairman of Committee on Undergraduate Publications. Professor Cunningham said that the first step in setting up an advertising agency for the Institute was to get an advertisement agency going. It was on the over-all picture of advertising in the Institute.

The next meeting of the committee will be held on March 10. All publicity men are urged by the committee to make the meeting a resounding success. Professor Cunningham, Course 15, will speak.
