Senior Humanties To Be In Lecture Series

On coming today the first of a series of four lectures will be presented by the Lecture Series Committee. The subject of the lectures will cover the influence of Seniors on Humanties.

Originator of the idea was John E. Burchard, Dean of Humanties. June 1st and 8th will be presented the first lecture to explain the Humanties Program. Also at this first lecture will be Karl W. Beutchn, Associate Professor English, who will lecture on the elective "History of Thought." It is recommended that Juniors be present at this lecture since the humanties program is to be revised.

On succeeding Wednesdays, Professor Liepmann will speak of "Music Appreciation," Professor William C. Greene on "Books and Men," and finally on May 11, Professor Norman J. Padelford will lecture on "International Relations."
