THE TECH
ENGINEER SAFE AT THIRD

John McInlich slides safely into third base on the payoff end of a double during yesterday's game. Number 33 is third base coach Joe Reagan.

Exploding with six big runs in the sixth, Tech's varsity sluggers drubbed Suffolk U., 14-2, in an abbreviated contest. The big sixth inning was the result of serious competition. The Royals had good pitching and handled both players and spectators, and caused the termination of the game at the end of the eighth inning.

Early Innings
The Beavers scored once in the first, Mike Johnson and Jimmy Watse killed. Johnson then tallied as Tech put on the double threat and the visiting catcher missed the ball into left field. Two more runs came across in the third. A walk, a single, a double, and home run.

Paper Museum Socks
Numbering Machine
The Turtle Paper Museum would like the return of a hand numbering machine which was borrowed by some student at the end of last semester. The device was borrowed from the museum to number some socks.

Specialized VI, XX Courses Scheduled For This Summer

Two-three week summer courses in the specialized fields of food technology and electrical engineering will be offered at the Institute in June and July. A summer program in food technology beginning on June 18, will be followed later in the month by a special course for the Electrical Engineering Department.

These two courses mentioned above and a number of other courses have been announced for this summer for those students who want to complete their courses before the beginning of the academic year. The summer courses will be open to students who have at least a year's experience in the field of their particular interest.

Two Schools Offer Combined Courses

Pomona College of California and Wesleyan University in Connecticut have joined the Massachusetts Institute of Technology in the plan for combined liberal arts and technical study. The combined plan of study now includes 14 liberal arts colleges, all of which cooperate with the Institute under a plan jointly established in 1950. These college have joined with M.I.T. in organizing an effective combination of liberal arts and specialized technical training at the undergraduate level.

Under the arrangement, students at Antioch College, Bard College, Berea College, Bucknell University, Carleton College, Clarion State College, Colby College, Colgate University, Columbia University, Connecticut College, Davidson College, Denison University, Denison University, Duke University, Earlham College, Franklin & Marshall College, Fordham University, Franklin & Marshall College,
