Athletic Events No Longer Free To All, Non-Students To Pay; Registration Card Acts As Pass

T.C.A. Boys' Work To Hold Smoker For New Members

The Boys' Work division of T.C.A. will sponsor this week the first interest of freshmen in its work. The campaign, in part, is to promote additional work which has been under way since last term. In connection with this campaign 250 letters have been sent to freshmen who have shown interest in Boys' Work. The smoker will be held at 5:00 p.m. Thursday, September 28, in Tyler Lounge.

The keynote speech at this meeting will be made by Dean Revent Balter. Other talkers will include Mr. Wallace Rose, secretary to T.C.A., and representatives from the Y.W.C.A., the American Federation of Labor, and the United Settlements of Greater Boston.

Large Group

Boys' Work is the largest independent department of T.C.A. It is run by a director and a board of officers. Dr. Thomas H. A. Mahoney was appointed to provide a maximum of service to all students present their registration certificate for entry to T.C.A. The admission price for all events will be 60c per person, including tax. The events falling under this rule include all baseball and basketball games, all major track meets, most outdoor athletic events, and contests against the University of Connecticut and the University of Pennsylvania. Tickets may be purchased at the Athletic Office in Fens Auditorium, and all tickets will also be on sale at T.C.A.

Beaver Key Handles Tickets

For New Summer Session, Beaver Key, President of T.C.A. for the summer months. The tickets are to be handled by the latter group, which will receive 20% of the profits for use in recreation and entertaining visiting students.

Professor W. Gale

Appointed Director Of Summer Session

New Office Coordinates All Institute Activities Between Regular Terms

The coordination of the various activities sponsored by the Institute during the summer months includes both the regular summer schedule, designed primarily to meet the needs of the students, and also special activities of estatating value to others not associated with M.I.T. during the regular school year.

Cite Former Success

In commenting on the creation of the Summer Session Office, Professor W. Gale cited the Institute's successful experiences with special summer courses and conferences in such diverse fields as aeronautical engineering, astrophysics, spectroscopy, and petroleum engineering.

Professor W. Gale has been a member of the faculty since 1945, when he was appointed Assistant Professor of Aeronautical Engineering. He holds B.S. and S.M. degrees from the Institute, awarded in 1929 and 1931, respectively. He was born in Middletown, Conn., on June 2, 1914, the son of Walter H. and Grace L. (Hale) Gillis. His wife is the former Cecelia L. (Curtis) Gillis. They have four children: Jack, Robert, and Wilfred, all attending M.I.T., and David, who is in his second year at Harvard University.
