Sherwood And Linton To Present Technical Paper At AICE National Meeting

Dr. Thomas K. Sherwood, Dean of Engineering at the Institute, and Dr. W. B. Linton, Jr., will present a technical paper at the forty-second annual meeting of the American Institute of Chemical Engineers in Pittsburgh, Pa., on Wednesday morning, December 7.

This paper is a report on an experimental study of the rate at which solid materials dissolve in water which is in turbulent motion. The results of the experimental study have substantiated recent theoretical predictions and will permit chemical engineers to design heat transfer equipment for use under extreme conditions.
