BOSTON BAEDEKER

By RICHARD J. POWELL

With the art exhibitions in Building 14, the Gallery of Fine Arts, and the lecture series in the Institute Library, the coming winter promises to be a season of great cultural activity in the campus. The activities of the Fine Arts Commission, the Institute Library, and the Student Union have already been indicated. The New England Shakespeare Society and the Institute Shakespeare Festival are also active organizations.

The winter season thus promises to be one of great cultural activity, with lectures, exhibitions, and performances taking place throughout the Institute. With the addition of these activities, the Institute is poised to provide a rich cultural experience for its students and the public alike.
