Pershing Rifles
Company C-8 Pershing Rifles will hold a formal initiation for candidates today. Those to be initiated hold a formal initiation for candidates.

Model Aircrafters
On Sunday, members of the Model Aircrafters conducted a successful flying scale model airplane contest in Rockwell Cage. The prize was a perpetual trophy which the club has for this specific event. Professors Otto Hoppen and Frank Bentley judge the event. The first four contestants were Walt Money, Lloyd Licher, Richard Bax- 
ter, and Eugene Larrabee. Moore set a new record at 97.4 seconds with his Piper Super Cruiser.

Flight Simulator
(Continued from Page 1) this machine," Dr. Hall explains, "to permit the development of high- speed aircraft with a reduction in the time, expense, and number of conventional flight tests." Data from Wind Tunnel A problem is worked out on the apparatus by setting electronic com- puter dials that represent the vari- ous important characteristics of the aircraft to be studied—weight, ve- 
cocity, altitude, wing span and many others. Before the simulator can be used, many of these character- istics must be obtained from wind tunnel tests of small models of the proposed aircraft. Thus the question is "Yes" into the simulator by applying appropri- ate electrical signals through a con- trol board. The answer is returned on a chart on a recording apparatus in a matter of seconds. This compute, one of sever- al high-speed mathematical machines at Technology, adds, multiplies, integrates and sub- tracts at almost unbelievable speed. For example, a "simple" computa- tion which would take an able opera- tor 190 hours to carry out by hand is handled by the computer in 10 seconds and much more elabor- ate problems can also be handled in a matter of easy minutes.
