Debating Society. Final of annual debate tournament. Question: "Do dominant universities must maintain all basic agricultural industries." Room 6-336, 5:00 p.m.

MONDAY, MARCH 2, 1950

Technology Miscellaneous announcements. If you are like most students here, we are sure you will agree with your friends in the Brown Room that this will reduce the price of the 14th of March 1950 edition of the "Daily Princetonian." The price will be $3.20 a year, the same as last year. While this least statement may not sound like a great saving, we feel that the difference between $3.20 and $3.10 is saved in the buying and selling of second hand texts. These sales are standard with other stores selling of second hand texts. At the Coop. Prices there, however, are comparable quality for $.05 per paper.

Oppor tunities (Cont inued from Page 1)

Engineering is offering research opportunities in a wide range of fields, according to Prof. Harold L. Hazen. Among these include electronics, servomechanisms, high-speed digital computers, electronic circuitry, center of analysis, insulation, radar, research, radio, microelectronics, and computer graphics, and acoustics.

Applications for the fellowship must be made to the Research Office or U. S. Civil Service Examiners, by March 1, 1950. Applications will be accepted in the interest of the National Advisory Committee for Aeronautics. Applicants will be considered on the basis of standing in a national examination held this year. U. S. Civil Service examiners.

Applications for the examination must be received by the Board of U. S. Civil Service Examiners. Applications will be accepted in the interest of the National Advisory Committee for Aeronautics. Applicants will be considered on the basis of standing in a national examination held this year. U. S. Civil Service examiners.
