The binding action begins two minutes or less after the mix- ing has taken place, and five hours after treatment the soil is an elastic mass with tensile strengths from 5 to 14 pounds per square inch.

In the recent tests of the process, a stabilized soil block three inches thick withstood the weight of a car moving over it without noticeable indentation. A 16-pound steel ball moving over it without noticeable indentation. A 16-pound steel ball would rebound about six inches without causing any damage to the surface. A similarity according to the report on any of the known pavements has resulted in serious shattering.

Although the behavior of soil subjected to this new process under unusual high or low temperatures and after continuous long wear has not yet been studied in sufficient detail, the committee is optimistic in this respect. Tests under a wide variety of conditions are being conducted at the present time.

**Track**

_Continued from Page 1_,

To set a new record of 6:10 3/4.

The old record was 6:10 1/4.

The winning margin might have been even greater except that three of Tech suffered a broken ankle and Reib sprained an ankle in the high jump.

_Freshman_.

The Beaver freshmen won their meet against the Northeastern freshmen to give Tech a perfect day in track. Unlike the varsity, however, the Frosh were pressed all the way before they came through with a 47-46 victory.

With Consell of Northeastern pushing him most of the way, George Grenier of Tech turned in a new freshman 400 yard record of 1:16.5, breaking a mark of 1:19.8 set back in 1939. Other Tech freshmen were taken by surprise in the high hurdles and high jump, Colton in the 440 yard dash: 1, Dell'Isola, M.I.T.; 2, Martin, N.; 3, Martin, M.I.T., 5.9; Imperial 600 yard run: 1, Dell'Isola, M.I.T.; 2, Belton, M.I.T.; 3, Lewi, M.I.T., time 1:16.9, breaking a mark of 1:17.8.

**Rifle**

_Continued from Page 2_.

went to the line in the next to the last relay, with the University of Maryland leading the race with a 144. Suitable Dad Hartung set off for the Beaver's first team with a 278. Then Mc Bowers added a 274. With the pressure on them Art Auer again came through with a 286. As the word went around that it looked as if Maryland might finally be defeated, Robertson, after firing a 100 prone, accidentally dis- charged his rifle in the kneeling position to lose 10 points and ulti- mately the match. Allan Tanner valiantly tried to make up for Rob- ertson's 269 but could do no better than a 279. This gave the Engi- neers a 136 and second place.

**Summary**

**Calendars**

The Calendar of Events will be mailed to others than a 278, then Mel Bowers added a 280. With the pressure on him Art Auer again came through with a 286. As the word went around that it looked as if Maryland might finally be defeated, Robertson, after firing a 100 prone, accidentally dis- charged his rifle in the kneeling position to lose 10 points and ulti- mately the match. Allan Tanner valiantly tried to make up for Rob- ertson's 269 but could do no better than a 279. This gave the Engi- neers a 136 and second place.
