King Says Cars Must Be Registered And Insured

The Dean's office has called the attention of the student body to the problem of automobile registration. An automobile without the minimum of two plates and insurance is not legal. The minimum requirements are $5,000 for injury to one person and $10,000 for injury to two or more persons and $20,000 in case of death for an accident. Only the foolproof procedure is to register and insure the vehicle.

Proposals that the City of Cambridge recommend to the City Council of Lever House, down the river from the Institute, as a site for the new City Hall. Although the plan has not been formally presented to the City Council, it is likely that the proposal will be converted into a new city hall. This project would be a building right of eminent domain, which means that the property is not occupied and it is too soon to tell when the move will be made and what improvements will be made in the surrounding geography.

Freshmen Elect Section Leaders To Frosh Council

Election of Freshmen section leaders was held last week and a three-month contest to fill the seats finally ended recently at the city hall. The imposing office building which, if the plan is accepted, will house the new City Hall, is to be converted into a new city hall. In the past, the site of a housing project for freshmen has received much attention and the plan was done in response to that attention. The main reason we believe that it is today is that every apartment has a natural gas heater. The building represents a four-story, solid frame, modern apartment house many Techmen will be glad to move into.

Frosh Council Falcon Issue

The newly elected leaders and their assistants met together and accepted the positions they were elected to by their classmates. They were elected from each of the three living groups. The result of the election was that the new leaders will take over the election of the Frosh Council on Tuesday, February 21, in Lithfield Lounge. The new leaders are: President, Paul S. Whitney; Vice President, William B. Reardon; Secretary, Charles D. Shelton; and Treasurer, Ronald S. Tucker.

Boynton of Scony Divers Job Lecture

Mr. Paul W. Boynton will tell “Six Ways to Get a Job” at 5:30 p.m. Monday, February 21, in the Science Building. Mr. Boynton is an engineer and a student at MIT.

Boynton’s talk will be in connection with the new library which has been completed in time for the spring semester. The new library is an important addition to the library system of the Institute, and it is hoped that it will be used to the fullest extent possible. The new library has been designed to meet the needs of students and faculty in the most effective manner possible. Although not quite completed, most of the main facilities are now ready. The new library has been designed to be a center for the operation here at Technology. The building represents a four-story, solid frame, modern apartment house many Techmen will be glad to move into.
