Staff Players Present Comedy Play Entitled “Squaring The Circle”

Story Of Young Love
Russia During Extremely Trying Living Conditions

“Squaring the Circle” is accepted by most experts as the greatest comedy play of this year. Among those who have already seen the play are Mercury’s own actors and actresses. The play is given an excellent review by the Times, the New York Times, the Herald Tribune, and the New York Post. The play is a study of the life of a young couple in Russia during the period of the Russian Revolution. The play is presented on stage in a setting that resembles a Russian street during the Revolution. The play is a comedy and is presented in a humorous manner.

Bridge Players Compete In Intercollegiate Tourney

A new round of the National Intercollegiate Bridge tournament was held in the main room of the campus on April 10th. Participating in the tournament were the following pairs: Nick Maltese and Jack Moroney, Thomas McHugh and Roger Hannah, John Leiter and Martin Gannell, and John Wieland and Leo Berlitz. Rewards were distributed at the awards ceremony.

Similar eliminations are being held at various colleges, with the two highest pairs in each section receiving an all-expense trip to Chicago for the finals.

Dedicated to the health of the nation, the American Lung Association is asking all Americans to give up smoking cigarettes. The association is offering a reward of $1,000 for the person who can prove that smoking cigarettes is dangerous to health.

Library

First floor will be designed with garden-type landscapes and comfortable chairs and tables for relaxation. Planter boxes are being used to provide maximum use of available space without disturbing readers or woodwork.

MUSIC LAB: Condensed Notes

The question also arises concerning the length of time the students spend thinking, as no lights are to be in the “prayer room.”
