**LETTERS TO THE EDITOR**

**Editor, The Tech**

Dear Sir:

The time has come to bring up to a point that has been becoming more and more evident to a few of the residents of the old Senior House. It is a thing not confined to this house alone, but it will be spoken of in terms of the old Senior House.

Seems that some of the students who live here are not content with the way the front and back yards look. I was informed by the late Mr. Brodsky that some men would rather throw things out the window than in the wastebasket. Such things as Breed..

opus, cheese and whiskey bottles. These are the places which they think that they don't actually live here, and why should they bother about the lawbreakers. These are the girls who are already displaying a student lack of potential civic responsibility.

Now there's nothing wrong with having food and drink in the room but it ought to stay there. In fact it's so amazing that it's more trouble to pull down the window and toss the stuff out than it is to throw it in the wastebasket. Granting that the porter service is not what it used to be, the one service that is rendered is the emptying of waste baskets. And it's done into an inconsiderable.

With a foot of snow on the ground it's hard to believe that everything looks fine—or did it until this morning when a car came empty had come appeared outside Ware.

Let the people concerned figure out just who everyone resents that he ought to be concerned. All that's being said is that if everyone is going to live here for three-fourths the year why not keep the place tidy?

Then towards the close of the war, with the Army inactivated, it is his political dis- charge, Mr. Lobdell, who was sent home, found that this amount was far too high for him to pay. It was subsequently determined his pay was too low and that he was not eligible for the loan.

This year, he has not been able to keep up his payments for the loan.

Might as well mention that he has not been able to keep up his payments for the loan.

Then the news will be heard. For the whole United States Army, for the whole nation, has been returned to the country. These are the guys who do all their own cooking.

Along with the balloons, the atmosphere was decorated with confetti streamers and Marquis Gras masks on the walls. Judging from the success of this dance, I think people might be an annual event. A big name band and a low admission price will make a marquee formula for any dance.

The house is planning a party if you should chairwoman will get in touch with this column, we'll make arrangements for the benefit of the war.

One thing that has been talked about is that the porter service is not what it used to be, the one service that is rendered is the emptying of waste baskets. And it's done into an inconsiderable.
