Baker Asks Student Support For Housing Edict Protest

Students Required To Answer Forms For 1950 Census

Questionnaires for the 1950 census will not be sent to dormitory residents. Students will be required to complete a 36-question form concerning their name, address, race, sex, age, education, marital status, and citizenship.

"Unusual Residence" is more than what is implied by the questionnaire. For the purpose of questions 2, 3, and 16, college students are considered to be usually living at the dormitory, temporarily, at local homes, or at school. You are not to enter this information on your summer address.

Harvard Bridge Conn

When the Harvard Bridge was re-constructed last fall, M.I.T. decided to abandon the trolley lines in the service. An extra overhead wire was installed in the towers of the bridge for use in the hybrid electric trolley system. The trolley lines ran from the power plant through the power house to the power plant for the New Dormitory.

The Institute group, composed of students interested in science, was able to use the line as quite satisfactory from the passenger's point of view.
