Riverside Residents Move To East Wing November 1

November 1 is the date now set for the opening of the newly con- structed Riverside dormitory, reports Mr. Gordon Watson, manager of Campus Buildings. A number of the original plans were inadvisable, and the building will be ready on the

**Technical Skills By Option Only Start Next Month.**

The first series of Technical Skills will be started on Monday, October 22, through Friday, October 26, from 9:00 to 11:00 a.m., according to an announcement from General Manager Samuel Rakowitsch.

A new feature is that to be added to the list of classes will be the option of obtaining training for those who are interested. Full details can be obtained at the option booth.

**Air Force Officers Visit Institute In Campaign To Get Officer Trainees.**

A team of U. S. Air Force officers will visit the institute, beginning Monday, October 30, for five days beginning October 31 as part of a nation-wide campaign to compete for the services of young men and women to become officers in the U. S. Air Force.

According to Air Force information, O. Stites, who is here to make advance arrangements for the Selection Team, men with two or more years of college have an opportunity to go directly into one of the officer training courses.

Both men and women, according to Capt. Stites, can qualify for Air Force Officer Candidate School. Per six months as students here, or have the equivalent of eight Technical graduates, and officer, to be elected by a majority of the staff sergeant's pay and upon graduation are commissioned as ensigns in the engineering program. The officers are assigned to non-flying jobs in administrative and technical fields. Besides schooling, applicants for the Aviation Cadet Pilot or Navigation training must be single, citizens, and between the ages of 19 and 25.

**Killian Tells Of Long-Term Plans; Development Fund Hits 16 Million.**

**WestCampus Building Project Is Disclosed.**

In a speech given Tuesday night President Killian presented the Institute’s long-term plans for an improved campus community at Technology. Plans call for development of several new buildings, including a residence hall for men and student living. All future labora-

tories will be located on the eastern side of the campus.

The object of the program, according to President Killian, is the creation of the kind of community of which "a greater learning learns the arts of citizenship."

He cited a model of the west campus of the future produced by graduates of engineering and social sciences. President Killian spoke to more than four hundred alumni of the graduating class of 1928, which met recently in the Hotel Statler. This dinner marks the beginning of the West Campus fund-raising program. He pointed out that the remaining four million of the Institute’s 30 million dollar Development Fund Drive will be raised from this dinner.

Dr. Killian also discussed the problems of alumni and the changes to be made in the humanities program. He said that alumni need to provide an adequate basis for work and "not a culture or habits with a capital "C"."
