Field Day Emerged Out Of Violence Of Earlier Soph-Fresh Rivalries

Field Day is now fifty years old. As an annual, traditional event the first Field Day was held in 1901. From this time on, it has become a tradition for freshmen and sophomores to compete against each other in various athletic contests. Today, it is one of the most popular events of the year.

Events held in 1901 included foot races, tug of war, and baseball games. Since then the race and tug of war have been the most popular events. In 1905, the day's events were expanded to include a gymnastics competition.

Field Day is held on the last Friday of each month. It is a day of fun and games, with many activities for both students and their families. The day begins with a parade through the school, followed by a picnic lunch. After lunch, students participate in a variety of events, including relay races, tug of war, and track meets.

Field Day is not just for students. Parents are encouraged to participate as well. The day is a great opportunity for families to come together and create memories that will last a lifetime.

TCA Annual Dinner
Opens Fund Drive
Year's Goal Is $185

Launches its annual drive by operating funds, the Technical Christian Association held a dinner in the Campus Room of the Old State House last Wednesday in order to acquaint actively and pleasantly with the services made possible by the drive.

Director of the Medical Depart-ment and Acting Dean of Students, Dr. Dana L. Parsons, spoke of the importance of the TCA to his student life here at the Institute and pointed out some of the ways in which TCA serves the students as a whole.

"The gift made last summer to the Kregel Foundation for an orphanage and chapel has been received," said Dr. Parsons.

October 28 through November 1 is the time of the drive, and not a dollar will be turned loose. It is an effort to produce $150,000 less than last year. The TCA system that has been used in prior years will be used again.

Our fine-feathered friend isn't being "tamed" by all those tricky cigarette tests you hear so much about! A fast puff of this brand—a sniff of that. A quick inhale—a fast exhale—and you're supposed to know all about cigarettes! No! You don't have to rely on quick tricks. The true way to test a cigarette is to smoke it pack after pack, day after day. That's the test. Camel asks you to make...the 30-Day Mildness Test. Smoke Camels—and only Camels—for 30 days. Let your own "T-Zone" (T for Throat, T for Taste) be your proving ground. And when you've tried Camels as a steady smoke, you'll know why...

More People Smoke Camels than any other cigarette!
