Campus Interview

WHO DO YOU THINK WILL WIN FIELD DAY AND WHY?

James Mast, '48—"By sweeping the football game, relay, crew, and swimming, the class of '48 will indicate to the fresh their proper place in the Institution."

Barbara Beyer, '44—"I believe the freshmen are going to win because of their strong class spirit and, after all, they realize the value of a year's experience in their activity of prestige to win."

Richard Glass, '45—"In my opinion, it's going to be a close fight, but if we get plenty of support, the Sophs certainly ought to win."

Roy Chait, '44—"I just couldn't say, but it's going to be a close fight."

Bob Lobkiewicz, '46—"I think we're going to win the football game, mainly because of the good showing against Harvard. The upcoming meet is in doubt with the freshmen having a good base team. The tug of war looks like a fresh victory because of lack of Soph interest. The relay race and crew ought to go to the Sophs, and the glide fight to the fresh, especially if the Sophs have already won enough points to win."

Gilbert Shulman, '40—"I think the freshmen will win because basically I believe that the Sophs are the lowest form of the human species. The average Soph is lazy and sly, and the fight in the white class of '48 is lower than absolute zero, Kelvin."

Arvan Speer, '44—"I pick the Sophomores to win because they have the advantage of a year's experience playing together under the experienced freshmen, whereas the fresh have had only six weeks at the met."
