Resulting from Motor Vehicle Accidents

Miss Rosanna M. Dowd, 14 Lake St., New York, N. Y., has been appointed to head a safety campaign for the French government to reduce the number of accidents. She will be assisted by safety engineer Mary Doredo, who will be in charge of a direct attack on the problem. Miss Dowd is a former member of the Institute Committee on Traffic, and her appointment is expected to be a major step in the reduction of accidents.

Mobilization

The present world situation is embittered, but there has been a 77 increase in drunkenness since 1941, and "Jigger Lena and College Chatter" are having a better time of it than ever before.

Safety engineer Mary Doredo stated that an M.I.T. Defense Council will not even attempt to protect the Institute against a direct attack on the institution. All we can do is to seek protection from a "mata" Doredo summarized. Nevertheless, the committee expects to distribute some 30,000 pamphlets describing the latest methods of protection against atomic attack to every individual connected with Technology. This will be done within the next few days, Doredo stated.

The French government is offering a three-months' visit to Paris as a prize for the best essay on that city. Information may be obtained from Travel & Study Inc., 115 East 17th Street, New York, N. Y.
