Early Renaissance
And Medieval Art
Exhibited in Hayden

An exhibition of Medieval and Early Renaissance art is being prepared and will open on March 14 in the Exhibition Room of Hayden Memorial Library. It will include originals and reproductions of medieval paintings, ‘Life’ panels of Venetians, examples of medieval sculpture, a tomb from the Busch-Reisinger Collection, as well as other manifestations of art of the period between the 11th and 16th centuries.

The exhibition is being prepared under the supervision of Mr. Thomas P. McNulty of the Department of Architecture. It will be open, every weekday excepting Saturdays until April 2.

STOWE-MANSFIELD ASSN.
DEPT. 29 -------------------
STOWE, VERMONT

Mr. Bell, I heard every word you said—distinctly!

BELL TELEPHONE SYSTEM

75 YEARS OF TELEPHONE SERVICE

On the evening of March 10, 1876, on the top floor of a board of superintendents, the telephone carried its first intelligible sentence.

It seemed like a miracle to our grandparents and great-grandparents. It seems like a normal part of our everyday living. And that is the real miracle—the fact that the telephone has come so much to so many people in so many ways.

The telephone is an indispensable tool of business and government—today's tremendous job of production and defense could not be carried on without it. It is one of our great ones. It helps maintain family and community ties. It keeps rights on growing and improving.

Never in the history of the telephone has it been as accessible to so many people as right now.

Rules

(Continued from Page 1)

visitors be out by midnight on Friday and Saturday nights.

Farnsworth went on to say that he was bringing the reports to the attention of dormitory residents in hopes that they might in some way bridge the gap between their mental code and that of the outside community. Neither he nor the Institute was trying to protect the morals of individual students, he added.

Desire Action

Asked what might happen if the current situation remained unchanged, Farnsworth answered, "I don't know." The corporation and faculty were both caught off balance by the student government's protest, he pointed out, but hinted that drastic action by these bodies was not out of the question if serious trouble developed.

On the matter of specific house action, Farnsworth again pleaded ignorance. He intimated in a broad way that even enforcement routines might be worked out by special committees.

Photo Contest

March 15 is the deadline this year for the 4th Annual Jeppe Alumni Mr. International Collegiate Photography Exhibition, in which over 250 photographs will be judged. Photographs must be 8 by 10 or larger and must be submitted in standard 16 by 20 photo mounts. Ten winners will be selected and 16 photographs may be entered.

Betsy Ross forms may be obtained from Jeppe Alumni, 757 Massachusetts Ave., Cambridge, Mass., or Walter Williams Hall, Columbia, Mo.

Parking

(Continued from Page 1)

House (the East, North, and West parking lots respectively) are controlled from 7:00 a.m. to 4:00 p.m. each day from Monday through Friday. During these hours, only cars bearing special windshield stickers are permitted to park in these restricted lots. Each of the three lots has a different sticker.

The following students (including graduate students) may apply at the Buildings and Power Department Office for permits to park in these restricted areas:

1. Any commuting student: The applications of students in this group do not require any endorsements or supporting letters, unless requested by the Buildings and Power Department.

2. Any student who for reasons of health or physical infirmity cannot use public transportation: Students in this second group must apply with a supporting letter from the Medical Department recommending that parking facilities be made available to them if possible.

3. Any Graduate House or dormitory residents who would be seriously handicapped in fulfilling business or academic functions if they had to rely solely on the MB&AS for frequent trips.

Several of our best men have fallen by the wayside this season.

The team lost only two men from last year's squad which took the varsity title. One of these was the freshman pole vaulter Baylis Thomas, who broke his wrist swinging on the parallel bars the other day. Baylis broke the record for freshmen with 5 feet 9 inches.

Flashing blades are cutting the waters of the Charles again as Coach Macmillan whips his boys into shape for the coming crew season. It is still too early to venture any sort of a forecast on the boat's prospects. The team lost only two men from last year's squad which took the varsity title. One of these was the freshman pole vaulter Baylis Thomas, who broke his wrist swinging on the parallel bars the other day. Baylis broke the record for freshmen with 5 feet 9 inches.

Although the record of last year's crew was not considered to be one of the finest Prep-school teams in the country, Coach Roy Merritt really had them working.

Frosh Aquamen have made this year winning six out of seven races, and the freshmen have shown promising signs of filling in the weak spots on the more highly skilled varsity. Some of our best men have fallen by the wayside this season.

Women and men look pretty good. Coach Roy Merritt really had them working.

The freshman occupation of the land, they pointed out, the freshmen could also be met.

If the above conditions were met, the situation could be changed, Farnsworth continued. "I don't know." The corporation and faculty were both caught off balance by the student government's protest, he pointed out, but hinted that drastic action by these bodies was not out of the question if serious trouble developed.

On the matter of specific house action, Farnsworth again pleaded ignorance. He intimated in a broad way that even enforcement routines might be worked out by special committees.
