with only fifteen thousand pounds of metal.
This is one of the first transonic tunnels ever to be built, but several companies are at present in the process of planning the building of such a tunnel. A transonic tunnel, like this one, carries winds from right-to-left to one and three-fourths times the speed of sound.

Public Relations Committee
The Public Relations Committee announces that a new rule has been added to the L.S.C. regulations. This rule states that anyone who finds this rescheduling inconvenient will be refunded the admission price to this lecture any time between now and May 3.
