Low Student Rate For Transatlantic Crossing Offered

Student Travel Council Has Dormitory Style, Cheap Accommodations

American-built C-47's, operated by a Norwegian company, will carry students and their luggage on the first flight of the new Transatlantic Student Route. The two ships, which are in Europe and ready to sail, will return in late August and early September. Leaving either from Montreal or New York, the ships will make a nine-day journey to Le Havre, France. Airliners will have been fitted with dormitories and provide social and recreational facilities, as well as full medical services. Meals will be served cafeteria style.
