NOTICES

Baker Memorial Prints
A selection of 36 Everett Moore Baker Memorial Prints is available for viewing this spring. Signings must be made before May 22, at the T.C.A.

Tech Show Records
This year saw 3,600 p.m. and again at 4:00 p.m., the science library will play the same game from the 1951 Tech Show. Techs called "Call Me Ben." Everyone interested in hearing the music is asked to request one of these. The music is currently available in Buildings 10, 12, and 11. These will be played daily. They may also be obtained by contacting Larry Isaacson at 6-3936. All who have ordered records are requested to pick them up at the booth in Building 10.

Technique
Technique options are to be reissued in Building 10 from 9:00 a.m. until 3:00 p.m., today, Monday, Tuesday, Wednesday, Thursday, Friday. In order to avoid confusion, options should be reissued during this period.

L.D.C.
The Informal Dance Committee of the Walker Memorial Student Union will hold three dances in Morse Hall during the summer. The dates will be held on Saturday evenings, June 30, July 28, and August 25, at 8:30 p.m. Tickets will be sold at the door, and will be $1.00 per couple. All members of the M.I.T. family are invited to attend.

Budget
(Continued from Page 1)
crafts funds for the following year will be contended and awarded to the extent of their appropriations.

The First Church of Christ, Scientist
The Mother Church, FALMOUTH AND ST. KITTS, BOSTON
Sunday services 10:45 a.m. and 7:30 p.m.; Sunday School 10:00 a.m. Wednesday evening meetings of 7:30, which include testification of Christian Science healing. Reading Rooms — Free to the Public.
5 Huntington Avenue, Boston 6, Mass.

Be Happy
Go Lucky

LUCKIES TASTE BETTER THAN ANY OTHER CIGARETTE!

Fine tobacco — and only fine tobacco — can give you a better-casting cigarette. And L.S./M.F.T.- Lucky Strike means fine tobacco. So, for the best-tasting cigarette you ever smoked, Be Happy — Go Lucky! How about starting with a carton — today?

Straton Winners Named by Judges; Herbert Wilf First

The results of the Annual Straton Prize Speaking Contest have been announced by the judges. Herbert S. Wilf, XVIII '52, won first prize of $100. His topic was "What Kind of Universe?"

The chairman of the Judging Committee was Professor Thomas H. D. Mahoney. The judges were Professors William C. Greene, C. Faytayl Taylor, and Alister L. Shapero.

If, after reviewing their approbation, granted any activities desired internal revisions, they are requested to contact the Planning Committee before the close of the present school year. Internal changes must not alter the total budgets for the activity.

Hydrodynamics Lab Named to Be Dedicated At June Symposium

The newly-completed Hydrodynamics Laboratory and Ship Model Towing Tank at the Institute will be dedicated on Monday, June 4, at the opening session of a three-day symposium on the role of hydrodynamics in modern technology.

More than 360 engineers and scientists from university laboratories, industries, and government agencies are expected for the symposium which will commemorate the completion of the first new facilities made possible by M.I.T.'s recent $50,000,000 development program.

Dr. James R. Killian, Jr., president, will formally accept the new laboratory on Monday morning during the dedication ceremony.

The symposium sessions will deal with the role of modern hydrodynamics — from a motion and action of fluids — in industry, in public works, in naval architecture, and in the various phases of national defense. The technical presentations, to be presented by outstanding leaders in these fields, will give a summary of the analytical, experimental, and practical solutions of engineering problems. In addition, members of the staff will review their own research activities in the field of hydrodynamics and hydromechanics.

Speaking the symposium will be Major General Lewis A. Flick, chief of the Army Engineers; Captain H. E. Clark, USN, special assistant to the chief of the Navy Bureau of Ships; Karl E. Bohnenkamp, dean of the College of Engineering, Notre Dame University; Forrest Nagler, chief engineer, Allis Chalmers Manufacturing Company, and Wesley H. Nelson, assistant commissioner of the Bureau of Reclamation. The various sessions will be presided over by Mr. Beauchamp E. Smith, president of B. Smith Company; Boris A. Bakhmeteff, professor of civil engineering, Columbia University; Vice Admiral Edward L. Cochrane, head of the M.I.T. department of naval architecture and marine engineering on leave as administrator of the Maritime Administration; Rear Admiral Colin M. Booth, USN, of the Office of Naval Research; and Mr. Minne, director of the mathematical sciences division in the Office of Naval Research.

Dr. Karl T. Compton, chairman of the M.I.T. Corporation, will speak on "Engineering Manpower Trends" at the symposium dinner on June 4, at which Thomas C. Denison, New York State Senator, will be toastmaster.

Freshman Ties Style For Frosh 'Next Year; Ties For Soph To追随风格

After several weeks of discussion, it has been decided that next year's freshmen will wear the same ties that their predecessors have worn for years. A motion has come up in the Freshman Council to have the rules changed to include beans or something equally distinctive. A vote was taken among the members of the Class of '54, but only 80% of the ballots were returned. Of those about 90% wanted a change, but did not indicate what kind. As a result, it was decided not to change this part of the rules.

It was decided, however, that a committee will be set up, composed of members of the O-Club, Agenda, and Sophomore Council, to approximate the present rules. These offenders will be taken before Soph Council and suitable punishment will be meted out.

WANTED! 1951 GRADS... to fill the BETTER JOBS appearing daily in the NEW YORK HERALD TRIBUNE.

UPPER CLASSMEN ONLY

A "Upper Classmen Only" sign seems to have elicited Lucky Strike's famous ad line, fit for ads inargible.

Donald C. Judd, Chairman of Directors

Be Happy — Go Lucky

When mawks are low and Dorper blow, Be happy — Be Lucky. Let up. Light up. Be Happy — Go Lucky. How about starting with a carton — today?
