3 Elected To IRE

Three members of the Faculty have been named Fellows of the Institute of Radio Engineers, an international society of over 30,000 members. The award of Fellow, the highest membership grade of IRE, is annually bestowed on scientists who have made outstanding contributions to radio or allied fields.

The recipients of the Fellow award, which becomes effective January 1, 1952, are: Dr. Leo L. Beranek, Associate Professor of Communications Engineering and Technical Director of the Acoustics Laboratory; Dr. Leo J. Chu, Associate Professor of Electrical Engineering; and Dr. Jerome B. Wiesner, Professor of Electrical Engineering and Associate Research Director, Research Laboratory of Electronics.

TUG OF WAR

All freshmen who are interested in participating in the Tug-of-War on Field Day are asked to attend a Tug-of-War rally today at 5:00 p.m. outside of Briggs Field House. John Shovenfield is coach.

Eng. Sailors Victorious; Frosh Win Their First

The Engineer Sailors had their first taste of victory this season by beating Brown, University of Rhode Island, and Babson Institute at a quadrangular meet sailed on Point Judith Salt Pond under the auspices of the University Rhode Island Boat Club. The regatta was sailed in class D dinghies in a puffy northeast wind accompanied by rain squalls. Ed Melick, with John Rieman as crew, won easily the first two races in class A division, and Adam Bincer, with John McDonald crewing won the first two races in B division up even greater margins — even though he had never sailed class D dinghies before. John Rieman skipped the final two races in A division taking a second and a third. John McDonald raced the last two races in B division taking first and second places.

Final scores were:

M. I. T. — 61
Brown — 59
Babson — 43
U. R. — 68

Crest

Adam Bincer literally stole the finish in his first race when he hit the finish line busy with a rounding crash heard for a quarter of a mile. Everyone thought he had sunk the boat until the race committee found it caught on the centerboard underneath Adams dinghy.

In another varsity meet which was sailed on the Mystic Lakes at the New York Yacht Club, Larry Buckland and Jake Kinwin sailed the Babson team to a second place with Harvard taking first place. The scores for that meet were:

Harvard — 46
M. I. T. — 40
Tufts — 39
Northeastern — 36
Colby — 33

Frosh Win

Gerry Blake and Stephen Loring, of Kirkland and to the Frosh team to a second place with Harvard taking first place. The scores for that meet were:

Harvard — 46
M. I. T. — 40
Tufts — 39
Northeastern — 36
Colby — 33

Campus Interviews on Cigarette Tests

No. 23

THE AARDVARK

After the fast tests — aardvark a mile for a Camel!

This classy campus caper-cutter got his smooth of cute cigarette tests. It didn't take his long to dig out the fact that cigarette mildness can't be determined by a mere single puff or quick-niff experiment! Millions of smokers, on and off the campus, have discovered there's only one true test of cigarette mildness.

IT'S THE SENSIBLE TEST... the 30-day Camel Mildness Test, which simply asks you to try Camels as your steady smoke — on a day-after-day basis. No snap judgments. Once you've tried Camels for 30 days in your "T-Zone" (T for Threat, T for Taste), you'll see why...

After all the Mildness Tests — Camel leads all other brands by billions
