NOTICES

WMIT Programs
WMIT announces two new programs on its schedule. On Tuesday and Thursday from 9:45 p.m. to 10:00 p.m., Dolly Cohen of Emerson College will do a program patterned after the "Lowdown, Gals!" series. From 2:00 a.m. to 7:00 a.m. the station will present "Music from Heaven" six mornings a week.

Maughan Movie
On Thursday, Oct. 18, the Lecture Series Committee will present "The Baram's Edge." The first showing of the movie will be at 4:00 (and 5:00) p.m. in Room 10-250; two other shows, one at 7:00 and one at 9:30, will be held in Room 6-120. Admission will be 30 cents.

Farnsworth Lecture
Dr. Dana L. Farnsworth, Medical Director of the Institute will give a lecture entitled "Psychology of the Students, Some Causes of Success and Failure" on Wednesday, October 17, at 5:00 p.m. in Room 10-250. The lecture is sponsored by the Lecture Series Committee.

Dancing Lessons
Dormitory Committee is sponsoring dancing lessons to begin this week. Intermediate lessons will be held on Monday and Wednesday nights; advanced lessons will be given on Thursday night. For more complete information, see house boards.

Faculty Rifle Club
The M.I.T. Faculty Pistol Club offers an opportunity for any M.I.T. Family, B.L.C. Staff, or employee to join a group with the following aims: learning proficiency with handguns, qualifying for national recognition, and offering opportunities for target shooting. If seriously interested contact R. Hodgson on ext. 2465. At present the club does not have guns available for training use, so it will be necessary for prospective applicants to provide their own firearms. Only two 25 yard guns may be used at the M.I.T. Range.

Lounger (Continued from Page 2)
Mass meetings in the Great Court, others rewards to Bups who will "roll" on their fresh-analyzing buddies, and generally tries to make life miserable for the second-year men. Uncle F's identity is known, and he has not escaped unscathed, but he and his organization show that this year's freshman class is not taking Field Day lightly. In fact, from the poor turnout for some of the Sephmore tests, one might decide that the frosh could win this year's battle. Unless the Bups begin to look a little more sober, they are ripe to become one of the very few classes since the first Field Day to win as freshmen only to lose the next year.

In the current issue of life, there is an article describing the first two weeks of the college life of a Wallasney freshman. One of the reasons this young lady chose Wallasney as her college was, as she was told, is because of its location--near Boston and several other colleges. After reading the rest of the article, however, one can easily see that the word "averse" must have been a misprint.

Financial Report
(Continued from Page 1) from gifts and investments were used for current expenses to offset this reduction. Total salaries and wages of $14,759,000 made up 68% of all expenses. Lower plant expenses reflected a decrease in special charges for alterations and maintenance, but the cost of normal plant operations increased over that of the previous year.

Endowment funds were moving in the right direction as they increased by $1,860,000 during the year. Total invested and other funds came to $25,575,000 from the $23,350,000 figure of June, 1950. The Institution's plant was worth $23,017,000.

New Students
The Medical Department reminds all new students including graduates that they must have a physical examination at the infirmary before the sixth week of the term. So far only about half of those required to take the exam have complied with this ruling.

Chernyayeff
(Continued from Page 1) Nobility--that is, his death in 1946, when Professor Chernyayeff became director. Professor Chernyayeff's realizations include such well-known works as a chemical research laboratory at Blackheath, Manchester, England, and a country house at Shaftall, Skipton, England. Professor Chernyayeff did this country house of wood, which, in England, quite unusual.

He is a life member of the Royal Institute of British Architects, a member of the International Congress of Modern Architects, the American Institute of Architects, and the American Society of Planers and Architects. He serves on the editorial board of the Magazine of Art and Architecture.

Selective Service
(Continued from Page 1) take this test as they have lower classifications than 2-A (B).

Congress provided in the recent amendments to the draft law that any registrant who was in a deferred classification on June 19, 1951, or who after that date received a deferment, shall remain liable for training and service until he reached the age of 26. Therefore, students who are 26 years of age and over to whom the above applies should take the examination if they wish to continue their education.

How to Apply
Obtains an Information Bulletin, an application card (SSS Form No. 196), and a mailing envelope from any Selective Service local board. Fill out the application in exact accordance with instructions and mail it immediately in the envelope provided, but you must fill in your own name and return address in the upper left-hand corner and affix a stamp. It might be advisable to send it by registered mail. Do not mail more than one application, as a ticket of Admission to the test will not be issued to any student filing more than one application.

When you report for the test, you must bring with you an official document showing your Selective Service number and the exact designation, number, and address of the Selective Service local board having jurisdiction over you. Apply to your own local board now if you do not have this information.
