New Members

Epsilon Initiates 12 New Members

initiated twelve undergraduate
members and one faculty member.
Professor Henry Paynter, Jr., noted
hydraulic expert, appointed the
initiative last Wednesday evening.
The initiates were: Rodolfo
Andrade, Clyde Baker, Mark Barna,
Michael Osnos, Calvin Cline, Lyde Elkinson,
Thomas Farnsworth, Andrew Hender-
son, Leon Loomis, Elman Pearman,
Russet Orville, President of the
annual Christmas dinner, and
Robert B. Mitchell, Professor of

Black, Prof. M. S. Livingston,
Gwen Turner, Bill Blumstein at Sut-
ton Black, Sandy Philip as Tyler
Rogerson, June Gable as Miss
Lovett, Paul Wateam as Wm. H.
Berghaller, Helen Bengtson as Peter
Boosan. The entire production is
under the management of Richard
Hamusky.

A discussion of possible problems
concerning first and second year
students was requested by Luther
P. Prince, Jr., chairman of the
Student-Faculty Committee, at the
Institute Committee meeting held
last Wednesday evening. The
committee decided to discuss the
extent of student dis-
satisfaction with teaching methods,
qualifications of instructors, and
the lack of system. It was decided
that the discussion was to be
brought out in additional sessions.

Some instructors maintained
that there is a definite need for
and room for improvement
on the quality of first and second
year instruction at the Institute.
The discussion centered around the
feeling that college instructors do not
"Light Up The Sky" Presentation
Tonight And Saturday Night

Shown above in rehearsal for "Light Up the Sky" are, left to right, Irene Gohl, William Bobbitt, (Mrs.) M. Smith, Jack Whelan, Blanche Johnson and Professor M. Smith Livingston.

Low-Cost Amplifier Developed At Tech
Has High Fidelity

After more than five years' re-
search, Mr. Frank M. Young and
Mr. Royer Noble, research assistants
in the Electrical Engineering Laboratory, have just finished the construction of a high quality amplifier, which will, for the first time, be available at the very lowest of about $80
com pared to the present price of $100.

The main problems were to con-
struct at low cost an amplifier
which will have a small distortion,
which will have a small distortion,
which will be available at the very low cost of about $25 compared to the present price of $100.
