'Bronx Project' Is Successful; Infinitive Split

The following is taken from the latest issue of the bulletin published by the M.I.T. Library. Preliminary reports (unrestricted) Project 'Bronx' for limited circulation.

Russians possess the scientific technique to prevent radioactivity, a suitable infinitive, encased in leaden cliches to describe the general process. Act details are still withheld for special construction for the job by the M.I.T. Library. Though the exact details are still withheld for reasons of security, it is possible to describe the general process.

From a stockpile of fissionable material, it is picked up gingerly its gerund and is ejected from the infinitive. It is plunged in a bath of plieoniasm. How an anonymous group of grammarians, working to secrecy in a remote section of the country, have finally succeeded in splitting the atom with a Gender Counter stands to congratulate our own brave pioneers; they have the infinitive but hidden away behind the Plural Mountains, it is doubtful if the speech from one another until at the ,Alpha-Betical rays are released to the scientist neuter. The question is often asked: Can other countries likewise split the atom? The so-called "Bronx-Project" finally succeeded in splitting the infinitive but hidden away behind the Plural Mountains, it is doubtful if the speech from one another until at

The Council decided to continue its sponsoring of a foster child in France for the third consecutive year. Questionnaires are now being sent to the fraternity in connection with the I.F.C. Formal and Weekend. Their aim is to discover the fraternity's opinions on choice of bands and favors, and to elicit suggestions for the event.

The dinner meeting was held at the Red Coach Grill. Dean Franklin E. Bellow speaks on deferred residuary for freshmen on Campus. This is also present a vital matter concerning both the Institute and the I.F.C.

The Tech

Tuesday, December 11, 1951

Brown Tops Merman; Plummer Sets Tech Record; Frosch Win

Dart Plummer's new Tech record of 2:143 in the 300-yard freestyle was the only bright spot of the day last Saturday, as the Beavers were beaten by a strong Brown team 46-29.

Two men charmed the waters of Alumni pool to garner Brown records. Cameron broke the 220-yard freestyle mark and Briscoe tied the 100-yard freestyle record.

Varsity's Second Loss

The defeat was the varsity's second straight since the season started. Coach Gordon Smith will send his team out against Harvard tomorrow in the Crimson's pool.

The fresh swamped the Brown poolside 35-39 on the same afternoon in the first meet of the season. Their next match will be against Dean Academy next Saturday in Alumni Pool.

WHAT ARE THE ODDS?

Looking for a place to live? 1 family in 100,000 lives on a houseboat.

If you know how to ride a motorcycle, you are 1 in 1,650.

It's 12 to 1 you'll like Schaefer Beer

This is how the original Schaefer brewery looked in 1842. It was located at Nineteenth Street and Broadway, New York City.

*HERE'S PROOF that cool, dry Schaefer has what practically everyone wants in a beer. In an independent survey among people who drink beer, 12 out of every 15 who tasted Schaefer liked it. No wonder more people are drinking Schaefer—America's oldest lager beer than before better in Schaefer's 110-year history.

Make it clear... make it Schaefer
