A new manual telephone switchboard, the first of its kind in New England, was formally opened as a part of a $150,000 installation of lines from England Telephone & Telegraph Company. The new equipment was in operation at the offices of the company in Cambridge to President Dr. Carl N. Adams.

Dr. Adams was accompanied by Mr. Arthur T. Compton, Chairman of the Corporation of the Institute, and J. E. Harring, Secretary of the Board of Overseers, in viewing the new system. Mr. Harring pointed out that the switchboard is the first of its kind in New England and is in use at a number of other institutions.

Technical Skill Has Added Advancement

In opening the new system Mr. Harring expressed the hope that the technical skill and progress which has been made in telephone engineering during the last five years will be applied to the further advancement of telephone service. "The telephone system of the Institute has always been in the forefront, with the second telephone line in Boston, and the first in New England. The Institute has made a notable contribution to telephone engineering and has affected the progress of this field. We are now in a position to serve the Institute and the surrounding area with a superior telephone service."

Established to Serve

The Institute's phone system will be used primarily for the benefit of the Institute's faculty, students, and employees. The system will also serve the public in Cambridge and the surrounding area. The Institute will also provide a public phone which can be used at any time for the benefit of the public.

The new system will provide a high-quality service and will be efficient and reliable. The Institute has made a major investment in this new system and will continue to improve and expand it in the future.

Graduate Admissions

Applications for enrollment in the new Institute's Graduate School of Engineering (SIE) will be accepted from qualified candidates. The Institute is now accepting applications for the fall term and the deadline for submission is March 30th. Applications should be submitted to the Office of the Dean of the Graduate School. The Institute will commence accepting applications for the spring term on April 30th.

The Institute is also accepting applications for the fall term of the Institute's Graduate Program in Engineering (SIE) and the deadline for submission is March 30th. Applications should be submitted to the Office of the Dean of the Graduate School. The Institute will commence accepting applications for the spring term on April 30th.

New SAILBOAT

A new sailboat recently introduced by the Institute of Technology is the New SAILBOAT, a small racing boat designed for the serious sailor. The boat is built to the specifications of the American Sailing Association and is equipped with a jib, a mainsail, and a spinnaker. The boat is designed for racing and is capable of speeds of up to 10 knots.

The New SAILBOAT is available for rent at the Institute's Boat Club and is open to all members of the Institute community. The boat is equipped with all necessary sailing equipment and is maintained in excellent condition.

The Institute of Technology's Boat Club is located in the Institute's waterfront area and is open to all members of the Institute community. The Club is equipped with all necessary sailing equipment and is maintained in excellent condition.

New Gallery Shows Retrospective Exhibit of Works by Karl Zerbe

A one-man retrospective exhibition of Karl Zerbe will be on display in the new Gallery of the Charles Hayden Memorial Library until April 30th. The exhibition will be open to the public and will feature a selection of works by the artist.

Karl Zerbe was born in Berlin in 1910 and died in New York in 1990. He is known for his contributions to the abstract expressionism movement and is recognized for his unique style and technique.

Zerbe's works are represented in numerous museums and private collections around the world, including the Museum of Modern Art in New York, the Art Institute of Chicago, the San Francisco Museum of Modern Art, and the National Gallery of Art in Washington, D.C.

The exhibition will feature a selection of works by Zerbe, including paintings, drawings, and prints. The works will be accompanied by a catalogue detailing the artist's life and work.

The exhibition is sponsored by the Charles Hayden Memorial Library and is open to the public. The gallery is located on the first floor of the Institute's main building and is open daily from 9:00am to 5:00pm.
