Three Hundred Girls Will Grace Dormitory Dance

The Dormitory Committee will hold its Annual Spring Acquaintance Dance on Friday evening, February 15, starting at 8:00 p.m. The dance will bring three hundred girls—on hundred from Radcliffe, Boston University, and Emerson—to the dance floor of More Hall in Walter Memorial.

The music will be furnished by the Radcliffe dance band and the well-known Dinner Music Society of Upper Beacon Street. Informal conversation, "Guys and Buds" will be the theme of the dance and decorations will follow the Valentine theme. Nat Aronson will be in charge of the music and Fred Clark will arrange the decorations.

Only a limited number of tickets will be sold, at $1.25, including tax. Tickets can be purchased in the lobby of Building 10 and from Hall and floor chairmen. Tickets will also be sold, while they last, at the door.

This dance will be the only function being held at the Institute under the auspices of the Dormitory Committee this winter. The Dormitory Committee does not expect a profit from the sale of tickets here at the Institute. Plenty of punch, lemonade, and cookies will be served at the dance.

Beranek Discusses "Sounds and You"

The third in a winter series of public lectures, "Sounds and You," will be held on Wednesday evening, February 27, at 5:00 p.m. in the Physic Teaching Laboratory. Dr. Leonard B. Beranek, professor of applied acoustics and head of the acoustics laboratory at Massachusetts Institute of Technology, will give the lecture.

Beranek's lecture on "Sounds and You" will review some aspects of acoustics of potential interest to everyone. It will include discussion of the characteristics of low amplitude sound, the effects of noise on speech and hearing, and the methods of acoustical design, the hearing, loudness, loud speaker selection, for acoustic design, and the high fidelity possibilities of acoustical design.

The lecture will be illustrated by demonstrations of acoustical properties of various materials by slides, specimens, and apparatus. The lecture will also include lectures of the current program in acoustics of the given, Dr. John, A. T. Tannas on "Automatic Control in the Acoustics Laboratory" at 5:00 p.m.

University of Vienna Offers New Program

The University of Vienna will have an international summer session this year. Students from the United States, Austria, and other European countries will be able to register in the University of Vienna for a number of courses.

Courses, conducted in English, will cover a variety of departments of the social sciences, law, literature and languages. Tours and excursions to the Salzburg Festivals, at Schloss Traunsee will be $100, and trips to Vienna, and to other places will be included. This program is under the auspices of the University of Vienna, Vienna, and the Austrian government.

The summer school, held in a lake region, near the festival town of Salzburg, will be given at 4:00 p.m. each day in the instruction of the Chair of Modern History of the University of Vienna. The tuition is $100, and students will be housed in the University of Vienna dormitory.

The inclusive cost for three weeks at the university will be $195.

WMIT Demonstrates "Radio Life Can Be Beautiful"

Pictured above in the WMIT control room is Chief Engineer Victor Ellis, '52.

By JOHN F. PANICO '54

Want to be a disk jockey or radio engineer, leave to radio and follow a radio career? If you are a listener you might consider a "radio career" and be a part of the famous programs of music, news, and sports that WMIT offers its audience every day. WMIT is located on the campus of Boston College and is operated by the Catholic Broadcasting System.

The campus radio station was begun five years ago as a part of the Boston College radio station. WMIT followed the Institute's official recognition of WMIT as a Class A station, and the activity was then continued with equipment which was a gift from the present station. At the present time, WMIT technicians, it is good as any college students have from...
