of equipment which allows WMIT to carry music directly from the Hayden Library. A test schedule from 3-5 p.m. has been tentatively arranged for the library broadcasts.

All-night Shows Discontinued

WMIT's all-night record shows were undoubtably comforting to the Techmen who habitually stay in the early morning hours, but not so to the sleep-worn announcers and engineers. For lack of personnel the station finally discontinued the all-night shows and returned to the 3 a.m. sign-off.

The dream of the station managers is expansion. They are willing to train and encourage any who are interested in any of the aspects of radio broadcasting. They will train engineers to use records, to operate station equipment, to operate announcers; they will train announcers in the arts of on-the-air etiquette; the technical staff will introduce newsmen to service, installation and improvement techniques.

Station Utilities Carrier Wave Broadcasting

Unlike commercial stations WMIT broadcasts by carrier wave. Transmitters are not connected to power lines. Fraternities are connected by Bell Telephone lines.

Parking for statistics on student-age parking lots will be handled by Business Communication Engineers with 13 points in the !

In the men's Air Force. Women are urgently needed to serve in both administrative and specialized career fields. Further information may be obtained from the Office of War Information.

Shelf Limits

However, there were the bright spots in even this exciting defeat. Al Schultz, one of the stars of last year's freshman team and former captain of Brookline, Mass., high school, finally found himself. In the opening minutes, he rebounded very well and showed some fine offensive court play, though only 6' 2" tall he is a fine rebounder, sneaking in from under the boards. They need only a good pivot man to make them an outstanding ball club.

Large Crowd Attracts

The game was played before a crowd of over two hundred in Walker Gym and the crowd was equally divided among both schools. Up at Waterville the following evening the fight was harder but was again won—this time from the opening whistle.

Behind 21-10 at the end of the first period the Engineers could not recover and Colby led 46-28 at halftime. They continued to pull ahead and the Beavers were on the losing end of the final score, 81-64.

Schott Shines

Paul Van Alstyne tallied for 12 points for the contest was Colby's high scorer. However, Al led the Techmen in rebounding. In previous games the 6' 2" redheaded very well and showed a good offensive game but preferred to leave the shooting chores to his teammates. However, Al led the Techmen in rebounding.

Basketball (Continued from Page 8)

in two years. Their two guards combine rare talents. Both Heinrich and Yousifvatz are fine, light-footed players and have fine outside shots. Wingard is cool and very shifty. Though only 6' 2" tall he is a fine rebounder, sneaking in from under the boards. They need only a good pivot man to make them an outstanding ball club.

L.S.C. Movie

The Lecture Series Committee will present the sparkling British comedy, "Passport to Pimlico," Thursday, February 14, at 8:00 p.m. and 3:00 p.m. in Room 12-E-205. Admission is 20c. Improvements have been made in the technical quality with the purchase of new lenses.

Hipfl Reminds You That . . .

on Thursday at 8:00 p.m. at Hilfield House. 5 Bryant Street. Leakey College will hold an acquaintance dance . . .

Hilfield House on Sunday. Room at 10:00 a.m. (the bags you can put into your rooms), and a movie at 7:30 p.m. (Meyer Levin's "The Hill") . . .
