Pershing Rifles Regiment Hosts At Competition

The MIT branch of Pershing Rifles holds its Eighth Regimental Drill Assembly, to be held on the stage of the MIT Memorial Auditorium, February 8 and 9 in New York City. The Institute became basic on the first of February when competition from Cornell University, which also wished to renew competition, was accepted.

The Eighth Regiment consists of the following institutions: Boston College, New York, New Jersey, and New Hampshire. There are Pershing Rifles at Providence College, two colleges of the Catholic University. Among those to be represented in this assembly are Columbia University at New York, Cornell, Fordham, New York University, Syracuse, and the College of Technology, Brooklyn Polytechnic Institute, Boston University at Island State, Queens College, and M.I.T.

Assembly Ball Highlight

According to the tentative program submitted by the Institute, there will be an assembly ball on Friday, April 23. On Saturday morning the I.R.C. drill competition will take place and on Saturday afternoon the companies will have the privilege of displaying their ability in fancy drill. The day will be capped with a stag banquet and the Eighth Regimental Assembly Ball. In previous years the Assembly Ball has been the highlight of the social season in many schools.

Last year the Institute company sent twenty men to the Regiment. The company competed only in I.R.C. drill, finishing fifth and sixteenth in companies competing.

The Sophomores, prepared to win.

This year the company, with the assistance of Captain Shlomo Landau and Drill Officer Eugen Houser; will be shooting for the winning of the circle. The company also wishes to show its alumni that a successful social affair can be held in Boston. 

Further details about the Meet will be released at a later date.

Pro. Fassett Speaks

(Continued From Page 1)

(I'm speaking of my superiors, the ones who were elected by us. Now I don't mean to say that they can't do a good job. I'm just saying that they might not be the most able people, or the most popular people, or the most democratic people, but they're the ones who were elected.)

They feel that they have been fairly successful in meeting some of the goals of Baker residents, and are particularly happy when one of their presidents returns with a friend.

"Real House Manager"

When a student comes to me, I feel the most grateful, because I can tell him to come back and I can tell him to do something. And he's not going to do anything, and he's not going to do anything, and he's going to do something. What I'm trying to do is to make sure that the student has a feeling of responsibility, and that he's going to be held accountable for his actions. And I think that's what I'm trying to do, and that's what I'm trying to do, and that's what I'm trying to do.

Regulation Statistics

It is a well known fact that to assume that these specialized courses will attract students from the more general courses.

The sophomores are fewest with 1000 to 1100. The junior class with 1100 to 1200 is the largest. One-third of the senior body is in the graduate school. 1022. Fourth year seniors plus in XVII and XXIII are counted as seniors.

After Hours

(Continued From Page 2)

The argument is that dorm committees have the right to be free from the interference of the house, to be self-sufficient in their work. And they argue that the committee is a separate and autonomous body, and that the dorm is not bound by the decisions of the committee. They say that the committee is supposed to be independent of the house, and that the committee is responsible to the students, and not to the house. And they say that the committee is supposed to be able to make its own decisions, and not to be bound by the decisions of the house.
