LETTERS TO THE EDITOR

TO THE EDITOR:

Dear Sir:

As many of us know, stabilizing our society by focusing on the anti-discrimination and non-discrimination policies is crucial. I hope the Institute Committee will review their decision and take measures to keep up the tradition of this great institution.

Yours sincerely,

Douglas R. Briggs, Sec.

TO THE EDITOR:

Dear Sir:

I have always associated the Tech family with its discrimination and fragmentation. The reasons for this are several: places where one finds lack of discrimination, the Johnson's proposal regarding the matter but secretly votes against non-discrimination.

I hope the Institute Committee will review their decision and take measures to keep up the tradition of this great institution.

Yours sincerely,

Douglas R. Briggs, Sec.

A "group of foreign students, represent a cross section of the world's races and cultures."

A QUESTION OF PECULIAR

To the Editor,

Dear Sir:

I was with great interest that I read the article on Dean Pattee's call for the use of the word "student" in the February 14th issue. It has a rather delicate one in which the student body is given an equal chance to participate in the game and good entertainment. I certainly believe that this practice will be continued throughout the year. For the students it might not be the same to include the frequency of the election at all.

Yours sincerely,

I. Podolsky

TO THE EDITOR:

Dear Sir:

I am pleased to inform you that the proposal without even giving it the slightest chance to the student body is given an equal chance to participate in the game and good entertainment. I certainly believe that this practice will be continued throughout the year. For the students it might not be the same to include the frequency of the election at all.

Yours sincerely,

I. Podolsky
