Sloan Building Reconstructed

The school of Industrial Management, which is currently undergoing the modernization of its building, is particularly concerned with the future of the building and its students. The Sloan building will be reconstructed, completing the work that was started last spring. The site is located on Memorial Drive near the college entrance, and the old building will be occupied by the School of Industrial and Labor Relations. The new building will have a larger library, new classrooms, and a new dining room. Additionally, the Sloan building will house the School of Economics.

Plans For Summer Study Abroad

Leading Universities are making arrangements to make it possible for students from Technology to study in Paris, Western Europe, and Scandinavian universities. The arrangements will be made to provide present problems in a wide number of fields.

For the first time, several important institutions and academic centers have set up International Summer Courses for students. The courses are held in Paris, Spain, Italy, France, and Germany. The range of topics includes mathematics, physics, chemistry, and economics. Students, as well as teachers, have the opportunity to study in these institutions.

Snack Bar At Benton

The snack bar at Benton House is open to all students 24 hours a day. This is a great feature of the student life and is available immediately for the benefit of the student body.

M. S. Department Gives Promotion

Master Sergeant Clarence W. H. W. E. won the approval of the faculty for promotion to captain. He has served as a new second lieutenant at the Armory for three years and has been a member of the team due to his experience in the field.

SELECTIVE SERVICE

Major General Lewis B. Hersey, Director of Selective Service, has received an important letter from the Army. The letter indicates the importance of the test, the Educational Testing Service at Princeton, N.J., to process the applications and assign each applicant to the correct testing center. A score of 70 on the test, General Hersey pointed out, does not mean a student answered 70 questions correctly; it indicates a level of ability as the test indicate the same.

The following ratings based on the test are

7.7: Examination grading: 8.2; Does he want to tryout for an army which tries for its production, Wednesday and Thursday, from 4:00 to 6:00 p.m. in Building 16.

This year's performance will be an especially important one from the standpoint of the effect on other activities involved in art or service. The purpose of the test is to enable the students of the entire institution to see whether the Institute can afford to take the necessary precautions. Because of the talent displayed in the past, the Humanistic Department has decided on incorporating a course in drama. The effects of the test on the production are:

Bill Blien, president; Floyd Blackwell, director; Frank Fairbanks, manager; John Bennett, stage manager; and John Rutigliano, business manager, will be the use, for the first time, for the Tech's-A-Poppin' dance as originally planned.

The Water Ballet and Smith's-A-Poppin' dance as originally planned, the Water Ballet and Smith's-A-Poppin' dance as originally planned, the Water Ballet and Smith's-A-Poppin' dance as originally planned, the Water Ballet and Smith's-A-Poppin' dance as originally planned, the Water Ballet and Smith's-A-Poppin' dance as originally planned, the Water Ballet and Smith's-A-Poppin' dance as originally planned.
