Know Your Rugby Players!

The bigger they are, the harder they fall in old college rugby that may well apply to many large men, but such is not the case when it comes to Harry Wenning, former William and Mary football and track star who turned playing loose-forward on the M.I.T. Rugby Team. Standing a mere six foot, one inch, in his stocky feet and tipping the scales at 235 pounds, Harry has the distinction of being one of the hardest runners on the squad. His rugged type of play has labeled him as one of the finest players on the team. Harry calls Bloomfield, New Jersey, his home town, where he played three years of varsity football, making allstate and excelling in the track in his senior year. He was also an outstanding javelin thrower for his team.

After graduating in 1944, he went to William and Mary on an athletic scholarship and went on to star on the varsity track and football teams. In track, he became Virginia State Champ, Virginia Big Six Champ and held Southern Conference Championship, while in football, he became several of the All-Star teams.

After graduating from William and Mary, he joined the Navy and served overseas as M.I.T. where he is combining Architectural and Building Construction Degree in Course IV-A this June.

Volleyball Champs

East Campus, Sigma Chi, Baker No. 1, and Phi Delta Theta lead their respective volleyball leagues as the regular season draws to a close. Each team is undefeated and has only one game to play.

In league A, Phi Gamma Delta has won four games and the Huskies three times without defeat in league three. Sigma Chi, Baker Virginia teams.

Indoor Track Season Finishes With Annual Interclass Competition

The Technology indoor track season reaches its completion this weekend with the annual Indoor Interclass meet. As usual the Freshmen team rank as favorites to take the team title on the strength of their depth, since five places will count in each event. The frosh will also be aided by the presence of three men who rank as favorites or co-favorites in their events.

Mike T, Warren Lott, Bill Antonetti in the hurdles, Bill Antonetti in the high jump, and Denny Shapiro in the pole vault.

Two events, the broad jump and the shot put, will be run off on Friday afternoon. The broad jump, which is scheduled for 4:00 p.m., has long been a popular event and this year will be no exception. Ken Chisholm, 4th Klein and Bill Antonetti all stand good chances of surpassing the record of 20 5/16. In the shot, which is to start at 5:00 p.m., Jerry Carpenter is likely to approach Jack Adams' record of 49 1/8. However, the Freshmen stand a good chance of scoring well in both the shot and the hammer throw.

The rest of the events are all scheduled for Saturday, starting at 1:00 p.m. The 100-yard varsity and Freshman records will both be in danger as Clyde Baker and Jack Panuskar take their last crack of the season at the varsity record of 10 1/3 minutes, 15.6 seconds and Charlie Schreiber goes after the Freshman 1:23.3 record. Regardless of what happens to the varsity, the intramural record of 1:24.1 should go unchallenged.

Bill Antonetti stands a good chance of setting another record to his rapidly growing list in the high jump where the meet record is only 7' 0 5/8. Warren Lott in the hurdles and Bill Nicholson in the mile also stand excellent chances of setting new marks. Since the mile-and-a-half has been replaced by the two mile, this year a new record will apparently be set for that event.

The Sophomores are the only team which is likely to challenge the Frosh for the team title, and their chances were severely cut by an injury to Ian Williams last Saturday.

Last year as Freshmen the class of 1949 won all three interclass meets by sizable margins, and this year's yellings maintained the tradition in the fall meet by piling up the highest total in the history of the competition.

The final result this weekend will depend mostly on the bulk turnout of men for the meet.

BASEBALL RALLY

The students of the Freshman college baseball team Wednesday, the 18th, at 5 p.m. in Rockwell Cape.
