**Beaver Bars**
(Continued from Page 1)

It is true that the primary purpose of a sport is not merely to win but also to teach certain principles of sportsmanship and fair play, a certain proportion of victories are necessary not only for reasons of morale but also to keep the particular team well balanced regarding both offensive and defensive play.

This has not been the case in recent years. Competing against teams who for the most part have more time to spend in practice beside making an active effort to attract athletic talent through scholarships, etc., most of the Beaver squads have not had the opportunity to use their potential.

The hockey team is a good example. Boston College and Boston University are known as two of the top hockey squads in the east. Pitted against a game and determined but nonetheless outclassed Tech team, the Engineers did not stand a chance.

It's time someone realizes what the situation is and does a positive job of rescheduling the sports program at the Institute so that the various teams would be competing with other schools of the same caliber. The morale of the athletes as well as that of the student body would take a jump well worth the time and effort spent.

**Campus Interviews on Cigarette Tests**

No. 36...THE OTTER

A usually mild-mannered and easy-going lad, he really made the fur fly when he realized the tristesse of most of the so-called cigarette mildness tests! He knew there was one honest test of cigarette mildness. Millions of smokers everywhere know, too — there's one true test!

*It's the sensible test... the 30-Day Camel Mildness Test, which simply asks you to try Camels as your steady smoke — on a pack-after-pack, day-after-day basis. No snap judgments! Once you've tried Camels in your "Z-Zone" (T for Throat, T for Taste), you'll see why...*

*After all the Mildness Tests...*

**Camel leads all other brands by billions**
