Frosh Trackmen Sweep Governor Dunmer Acad. By 75-42 Margin

Led by sweeps in the quarter and half-mile, the Technological Frosh track team ran up a decisive 75-42 win over Governor Dunmer Academy last Wednesday afternoon at Briggs Field. Warren Latouf set a new Frosh record for the 132-yard hurdles in his first shot at the event, finishing in 163 seconds.

Ed Counter of the preppers was high scorer for the meet with 14 points, picked up on a first in the low hurdles and seconds in the high hurdles and sprints. Bob Zotel was high point man for the Techmen with points in the shot put and long jump for 20 points.

Tomorrow the youth will defend their undefeated interclass title in the annual spring interclass meet at Briggs Field. Chance of a repeat performance are high, especially since freshmen performances in five events, the low and high hurdles, high jump, javelin and long jump are good.

WANT TO HELP IBE WIN? The Cambridge Eisenhower-for-President Committee is relying on M.I.T. for a manpower pool to work for Ike on and before Primary Day, Texas, April 19.

Published by Harcourt, Brann. How to use it and how to use your future.

This book is a guide to your future

Its subject: How have college graduates made out?

How do graduates stack up against the self-made men who held this way without the help of four years in college—but got a four-year start in the business world? Are they better husbands and wives? Is a 'college education' more than a 'college education'? If yes, what is the value added?

City teachers are faced with the question of what to teach their students. How do you identify the best of the college graduates? How do you measure them? This book is written to help you answer these questions. It is written for those who want to know how college graduates are doing today.

How do you use this book? This book is written for the classroom teacher to help him identify the best of the college graduates. It is written to help him measure the college graduates. It is written to help him identify the best of the college graduates. It is written to help him measure the college graduates. It is written to help him identify the best of the college graduates. It is written to help him measure the college graduates.

How to use it and how to use your future.
