Expanding Alumni Clubs Help Bigger Grad Ranks

An alumni association such as ours can be considered successful only if it contributes to the interests of both the Institute and its former students. Possibly the best measure of its success is its membership, since the Alumni Association has increased from 11,000 members to 27,000 members in the period since 1948, when the Technology Loan Fund Board was established through the generosity of a limited group of alumni. 

In recent years, applications for financial aid have increased, making the need for such assistance greater than ever. As a result, the Technology Loan Fund Board has been able to assist more students than ever before, with 4,000 students receiving aid in 1950 and 5,000 students receiving aid in 1952.

Although the Institute may be one of the best places to become financially independent, it is not always possible. The average student is not able to support himself throughout his entire college career, but must rely on financial aid to help defray the cost of his education. Financial aid is provided in the form of scholarships, loans, and grants. These sources of financial aid are available to students of all financial backgrounds.

Scholarships are awarded based on academic merit and financial need. They are available to students who have demonstrated academic excellence and who come from families with limited financial resources. Scholarships are renewable for up to four years, and the amount of the scholarship varies. The average scholarship award is $2,500 per year.

Loans are available to students who have demonstrated academic merit and financial need. They are available to students who have demonstrated academic excellence and who come from families with limited financial resources. Loans are renewable for up to four years, and the amount of the loan varies. The average loan award is $2,500 per year.

Grants are available to students who have demonstrated academic merit and financial need. They are available to students who have demonstrated academic excellence and who come from families with limited financial resources. Grants are renewable for up to four years, and the amount of the grant varies. The average grant award is $2,500 per year.

These sources of financial aid are available to students of all financial backgrounds. The goal of the Institute is to make sure that every student has the opportunity to receive the education that he needs to succeed in life.

Education Council Attracts Freshmen

Attractive future talent to the Institute is the object of the new Educational Council. This will be a way for students to be involved in the decision-making process and to be more involved in the Institute.

The Educational Council is a group of students who are elected by the student body to represent the students' interests to the faculty. The Council is responsible for making decisions about the Institute's policies and procedures, and for representing the students' interests to the faculty.
